

## EXHIBIT 35

BEFORE THE PUBLIC UTILITIES COMMISSION OF NEVADA NOTICE OF APPLICATION FOR A PERMIT TO CONSTRUCT UTILITY FACILITY UNDER THE UTILITY ENVIRONMENTAL PROTECTION ACT Techren Solar, LLC (the "Company") is submitting, pursuant to the Nevada Utility Environmental Protection Act ("UEPA"), an application to the Public Utilities Commission of Nevada (the "Commission") for authority and a permit to construct the Techren Solar Project, a photovoltaic power plant, under Nevada Revised Statutes, Chapter 704, Sections .820 to .900, and Nevada Administrative Code, Chapter 703, Section 415 to 427. The Techren Solar Project will be located within Clark County approximately 20 miles south of Las Vegas, Nevada on approximately 2,200 acres of land within the city limits of Boulder City, Nevada. This Techren Solar Project is being undertaken to generate up to 300 nominal megawatts of new electric power to provide reliable electric power consistent with federal and state renewable energy portfolio objectives; and will include (1) a new solar power plant with a nominal generating capacity of approximately 300 MW; (2) one substation with 34.5 kV to 230 kV step-up transformers; and (3) a 4 mile-long, 230 kV transmission line connecting to either the Eldorado or Marketplace substations, or both. The BLM will conduct a thorough environmental analysis of the Techren Solar Project, pursuant to the National Environmental Policy Act, and analyze the environmental impacts of the scope of the project and make a determination on whether or not to authorize the project and the right-of-way grants for the transmission line portion of the project. The contents of the Initial UEPA Application will include, but are not limited to: 1. A general description of the location of the proposed facility, including (a) a regional map that identifies the location of the proposed utility facility, (b) any alternative locations for the proposed utility facility, and (c) the reasons why the location is best suited for the proposed utility facility; 2. A general description of the proposed utility facility, including, (a) the size and nature of the proposed utility facility, and (b) the natural resources that will be used during the construction and operation of the proposed utility facility; 3. A summary of any studies which the applicant anticipates will be made of the environmental impact of the proposed utility facility, including a copy of all corresponding studies filed with appropriate federal agencies; and 4. A description of how the utility facility and related transmission facilities will aid in providing customers with reliable service and will serve the public interest. A copy of the application will be available on the Commission's website following the Company's filing of the application. Additional information about the UEPA process and a person's right to participate in that process can be found in Nevada Revised Statutes and Nevada Administrative Code Chapters 703 and 704.
