% of Total	30.10%	13.10%	14.36%	30.10%	0.63%	11.71%	100%

* Includes "private," "other federal" and "state" in one total.

**Unique entities as entered into Rangeland Administration System (RAS). Some operators hold permits in more than one district.

*** Number of unique operators in Nevada as a whole is 487 - but even this is not quite accurate. Some operators hold permits in their individual names, but also have a controlling interest in the corporations that hold permits in the corporations' names.
