Subject: Groundwater Development

To Whom It May Concern:

I am writing to voice my concerns about the water situation. I do not think that the Southern Nevada Water Authority should be allowed to pipe water from Northern Nevada down to Southern Nevada. Our water is a precious commodity. If you pipe the water down to Las Vegas, we will dry up and be a dust bowl. I lived in Las Vegas for 20 years and know the amount of water that has been wasted there.

I also understand that the cost would be too much. Please check into the desalination of water from California.

Please count my vote to not approve piping the water to Southern Nevada.

Thank you.
