Subject SNWA "waterGrab"

Please add my name as opposing the SNWA water project for the Great Basin and etc. I live in Mesquite, NV and am a registered citizen of Nevada.

Having toured the Great Basin and surrounding areas the water is an absolute necessity for the state.

I believe LV should have had a plan in mind when they allowed uncontrollable growth.

If you have ever travel through South Park in Colo. and seen what happened to that valley when the water went to Colo. Springs and surrounding areas you will know you don't want that to happen to our state. The area is completely brown and unable to support much of anything.

Please, please don;t allow that pipe line to be built

Respectfully submitted
