Subject Comment On Controversial Water Pipeline Project

Penny Woods,

The Water Pipeline Project is unnecessary. We, Solar Power&Water® Inc., will be able to supply Pat Mulroy's Southern Nevada Water Authority's 2025 goal of 400,000 afy as outlined in a presentation to her Board of Directors on 2/16/2006. No pipeline in Nevada will be necessary. See <http://www.solarpowerandwater.com> and read it thoroughly.

Very truly yours,  
Richard McKay
