Subject comment. Water grab DEIS

Penny Woods
BLM Project Manager
P.O. Box 12000, Reno, NV 89520

Penny,

Reminder

"Published in June, the EIS covers the first phase of the Southern Nevada Water Authority's (SNWA) proposal to build a 300-mile pipeline to transport as much as 176,655 acre-feet of water annually to Las Vegas, from as far away as southeastern White Pine County."

We, Solar Power&Water® Inc., plan to supply the Wellton Mohawk Irrigation and Drainage District its 400,000 acre feet peer year diversion water amount with new water extracted from the Gulf. The diversion water can instead be drawn by SNWA from Lake Mead with no grab pipeline needed.

Sincerely yours,

Richard
