I firmly oppose the BLM permitting the proposed water project to cross public land.

I oppose the entire project as a whole.

Just picture Cave Valley in the springtime and replace it with an image of the Owens River Valley in central California when it was assaulted in 1913 by the Los Angeles aqueduct project which brought the entire area to the brink of ruin.

Your permits would contribute to the demise of beautiful Central Nevada.

Please don't bring this shame upon the Bureau and this damage upon us, which includes financial ruin upon the ranchers and others in those valleys.
