Subject water pipeline

I am AGAINST the Southern Nevada Water Authority's pipeline proposal to pipe groundwater from White Pine County to Las Vegas Valley. I can see a new Owen's Valley happening here and do not think this pipeline is needed. I believe all companies and peoples need to be responsible concerning where communities are settled. If there is no water, there should be no building. There are alternatives to draining northern Nevada's precious water resources. Desalinazation is one possibility that is going to have to be developed. Robbing Peter to pay Paul should not be an option.
