Las Vegas, NV 89103

Dear Ms. Woods:

Thank you for the opportunity to comment on the Draft EIS ("DEIS") for the Groundwater Development Project. The BLM is to be commended for identifying the severe and lasting impacts the proposed project will inflict upon the land and all its inhabitants. The effects from the project would be irretrievable, irreversible and unacceptable, and would result in the end of life styles, recreation and ecosystems in eastern Nevada as we know it.

The BLM must choose the "No Action Alternative," and deny the right of way for this project. To do otherwise would violate its public trust responsibilities.

Among other faults are a failure to disclose the economic cost of the project, and the lack of specificity of well locations to gauge the environmental impacts.

Sincerely,

Tim Mulvihill
