

REC'D - BLM - NSO

9:00
A.M. OCT 11 2011

I hope I'm not too late with this letter to help vote no on this project.

The cost will be too high for the good it will bring.

The land developers will love this and it will never cost them a dime. It will be all the homeowners to pay for it.

Pat Mulroy (SNWA) ought to state the fact that we are already over built in the Las Vegas valley and put a stop on providing water or a building moratorium in effect so the water in the lake will be enough. Put Rhoades too shame. All he wants is to make money, nothing for the environment.

We (the homeowners) have lowered our water demands, change the existing environment by removing the grass the developers put in. Water is costing more because we use less. SNWA has to charge more to make more money. Henderson Water cost more also.

Please vote NO on the pipeline as I can't afford it.

Thank you

J. Michael Horning
