Dear Ms Woods,

I request that the BLM choose the No Action Alternative to protect the wildlife, plants, air, water, and people that live in the Great Basin. The DEIS describes major impacts that would result from this proposal moving forward, but fails to explore alternative sources of water for the future. Furthermore, the impacts on tribes of the Great Basin are too great and their needs and rights off-reservation have not been adequately considered.

Please protect the Great Basin and deny SNWA's request.

Sincerely,

Gavin Noyes
