Subject DEIS (groundwater dev. project)

I have lived in Las Vegas since 1962, as kids my family would go fishing many times in the great basin area and it would be a great environmental "CRIME" to take water from such a BEAUTIFUL historical place. There are many different migratory birds that need that water to migrate to and from North and South. I am a photographer and as a photographer that would be a great loss. If you haven't been to this area you should go, not with the BLM or water authority people but with a group of photographers. Because they can show you the true beauty of this area. Ask the Nevada camera club what they think. Another even better reason to say no to this water project is that the SNWA has lied to the public in the past and has been deceitful about it's spending of funds on just how much it's top employees make, Such as having a Wolfgang pucks restaurant in there office complex and passing cost on to the public. What is even much more concerning is how close the SNWA is to the COYOTE SPRINGS LAND DEVELOPMENT PROJECT. which will end up making billions of dollars if the SNWA can supply the water to this project. I doubt that any of this water project has anything to do with Las Vegas and a lot to do with the billions of dollars to be made with COYOTE SPRINGS. THE GREED OF A FEW IS DESTROYING OUR COUNTRY PLEASE DON'T LET THAT SAME GREED DESTROY THE GREAT BASIN NATIONAL PARK. The Water Authority. is lying to the tax payers so that they can profit with no regard for the damage they will cause to the environment or to our children's future. Please choose "No Action Alternative".
