### What about this environmental analysis are you specifically concerned about?

- C1 → The analysis does not provide specific impacts to Hiko, Crystal, & Ash Springs in Pahrump Valley → It does not provide sufficient information on the long term effects this entire project will have on quality of life for current and future residents of Pahrump Valley, their livestock & resources.
- C2 →

### What is missing from this environmental document?

- C3 → This DEIS fails to disclose project costs and sources of funding.
- C4 → This DEIS establishes no reasons for granting approval to a project that will impose harmful, irreversible impacts on public lands and resources.

### What other comments or questions do you have?

Because of the large number of unknown and inaccurate science, the BLM should delay any decision on granting approval of this pipeline.

I strongly support the "NO Action" alternative and request a 180 day comment period extension.

Please correct/modify my contact information (provide the correct information on the opposite page).
