

The Facilities approved by this ROD include the following primary water and power conveyance facilities:

- Main and Lateral Pipelines – approximately 263 miles of buried water pipelines, between 16 and 84 inches in diameter – this includes a fiber-optic cable telemetry system;
- Pumping Stations – three (3) pumping station facilities,
- Regulating Tanks – five (5) regulating tanks, each approximately 3 to 10 million gallons in capacity;
- Pressure Reducing Stations – three (3) facilities,
- Buried Storage Reservoir – a 40 million gallon buried storage reservoir;
- Water Treatment Facility (WTF) – up to 110 million gallon per day facility;
- Power Facilities – approximately 272 miles of 230 kilovolt (kV), 69 kV, and 25 kV overhead power lines, two (2) primary electrical substations (230 to 69 kV), and four (4) secondary substations (69 to 25 kV);
- Access Roads – approximately 388 miles of mostly existing roads; and
- Temporary construction and restoration sites including staging areas (3-acre sites placed every 3 miles), plant nursery sites, and 8 borrow pits.
