Bureau of Land Management  
Nevada Director Amy Leuders  
1340 Financial Blvd.  
Reno, NV 89502

We regret to learn that the SNWA Pipeline Row looks like it is on its way to approval by your agency. Again, it looks like the small guy is about to lose all they have worked for.

We purchased land in Spring Valley with our life savings almost a decade ago, knowing that there was a plentiful water supply. We subdivided the land with the intention of living on and selling some lots in this beautiful area. Now with the threat of SNWA pumping the water beneath our land for export to Las Vegas, people are hesitant to even look at our property, fearing that most of the water will disappear forever. With the high volume of water that will be pumped, we and others will be left with worthless land and no economic future.

Please do not approve this row for the pipeline and allow hard working people in Northeastern Nevada to retain what they have worked for.

Respectfully,

Robert and Sandra Benson
