

BRYANT & JANET WADSWORTH

9825 N. Meadow Lane

Highland, UT 84003

Sept. 28, 2012

Dear Madam/Sir,

We own a piece of ground in the area of Panaca and are very concerned about the Southern Nevada Water Authority's request for a right-of-way across federal public lands to pump and export over 37 billion gallons of water annually from ancient aquifers in central and eastern Nevada.

We strongly believe that this is not the proper way to supply additional water to the Las Vegas area. Such a move would be devastating to the people of Lincoln County. Please stop it!

Sincerely,

Bryant Wadsworth

Janet R. Wadsworth
