Memorandum

TO : Bald Mtn. Austin, and Grass Valley Herd Unit Inventory Files

DATE: 7/31/74

FROM : Wild Horse Specialist

SUBJECT: Wild Horse Inventory

On July 23-24,1974 Bud Riseburge and I inventoried Bald Mountain and Mt. Callaghan by fixed wing air-craft.The areas inventoried are shown on the location map attached. Individual band locations are plotted on USGS 15' series Quadrangle sheets, also attached. Bands are identified by band number, keyed to inventory sheets.

It is interesting to note that most of the horses were located either at waters, or high up on the hills.

Nearly all bands were Photographed

The results are tabulated below.
