Memorandum

4700
(N-066)

TO : Wild Horse Inventory File - Diamond Herd

DATE: March 28, 1975

FROM : Wild Horse Specialist

SUBJECT: Inventory

On March 2, 1975, at 0730, Roy Lee and Kurt Ballantyne conducted an aerial inventory of the Diamonds. The area flown included the Silverado, Leader, Sentinel Mountains, south to Highway 50, east to Newark Valley Road, then north again to Pinto Creek Ranch. From that point on only the west side of the range was flown. The northern boundary extended into the Elko District by one township approximately seven (7) miles north of Railroad Pass. One band was observed and included within this inventory.

Photographs were taken and band location plotted on the attached maps. A total of two hundred and eighty-four (284) wer observed, two hundred and thirty-five(235) were adults, twenty-four (24) which were yearlings or almost two years old and twenty-five (25) which were colts. Only 1 colt of this year was observed.

Total Flying Time: 7.0 Hours.
