

Stipulation Number	UTAH STIPULATIONS
UTSO-S-137	<p align="center"><b>CONTROLLED USE STIPULATION/TIMING LIMITATION STIPULATION: BURROWING OWL</b></p> <p>In burrowing owl habitat, no surface disturbances or occupancy will be conducted during the breeding and nesting season (<b>March 1 to August 31</b>) within 0.25 mile of known nesting sites.  <b>Purpose:</b> To protect burrowing owl habitat.  <b>Exception:</b> An exception would be granted if protocol surveys determine that nesting sites, breeding territories, and winter roosting areas are not occupied.  <b>Modification:</b> The Field Manager may modify the boundaries of the stipulation area if portions of the area do not include habitat or are outside the current defined area, as determined by the BLM.  <b>Waiver:</b> May be granted if it is determined the habitat no longer exists or has been destroyed.</p>
UTSO-S-138	<p align="center"><b>CONTROLLED USE STIPULATION/TIMING LIMITATION STIPULATION: GREATER SAGE-GROUSE NESTING AND EARLY BROOD-REARING</b></p> <p>Allow no surface-disturbing activities in occupied nesting and brood rearing habitat within 2.0 miles of a lek from March 15 to July 15, or in mapped and identified greater sage-grouse nesting and early brood-rearing habitat.  <b>Purpose:</b> To protect occupied nesting and brood rearing habitat for the Greater sage-grouse.  <b>Exception:</b> An exception may be granted by the Field Manager if the operator submits a plan which demonstrates that impacts from the proposed action can be adequately mitigated or it is determined the brooding/nesting habitat is not active  <b>Modification:</b> The Field Manager may modify the boundaries of the stipulation area if (1) portions of the area do not include brooding/nesting habitat, or (2) the brooding/nesting habitat has been completely abandoned or destroyed, or (3) occupied brooding/nesting habitat occurs outside the current defined area; as determined by the BLM.  <b>Waiver:</b> A waiver may be granted if there is no active brooding/nesting habitat in the leasehold and it is determined the habitat has been completely abandoned or destroyed or occurs outside the current defined area, as determined by the BLM.</p>
UTSO-S-139	<p align="center"><b>CONDITIONAL SURFACE USE AND TIMING LIMITATION STIPULATION: FERRUGINOUS HAWK</b></p> <p>In ferruginous hawk habitat, no surface disturbances or occupancy would be conducted during the breeding and nesting season (<b>March 1 – August 1</b> for ferruginous hawk) within spatial buffers (0.5 mile for ferruginous hawk) of known nesting sites.  <b>Purpose:</b> To protect ferruginous hawk habitat.  <b>Exception:</b> An exception would be granted if protocol surveys determine that nesting sites, breeding territories, and winter roosting areas are not occupied.  <b>Modification:</b> The Field Manager may modify the boundaries of the stipulation area if portions of the area do not include habitat or are outside the current defined area, as determined by the BLM.  <b>Waiver:</b> May be granted if it is determined the habitat no longer exists or has been destroyed.</p>

Number	UTAH'S LEASE NOTICES
UT-LN-16	<p style="text-align: center;"><b>BURROWING OWL HABITAT</b></p> <p>The lessee/operator is given notice that this lease has been identified as containing burrowing owl habitat. Exploration, drilling and other development activities would not be allowed from March 1 through August 31 which would disrupt burrowing owl breeding activities within 0.25 mile of an occupied nest. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
UT-LN-18	<p style="text-align: center;"><b>GREATER SAGE-GROUSE LEKS</b></p> <p>The lessee/operator is given notice that surface use or otherwise disruptive activity would not be allowed which would result in an aboveground facility within 0.5 mile of any active greater sage-grouse lek. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
UT-LN-19	<p style="text-align: center;"><b>BALD EAGLE HABITAT</b></p> <p>The Lessee/Operator is given notice that the lands in this parcel contains nesting/winter roost habitat for the bald eagle. Avoidance or use restrictions may be placed on all or portions of the lease. Application of appropriate measures will depend on whether the action is temporary or permanent, and whether it occurs within or outside the bald eagle breeding or roosting season. A <u>temporary</u> action is completed prior to the following breeding or roosting season leaving no permanent structures and resulting in no permanent habitat loss. A <u>permanent</u> action continues for more than one breeding or roosting season and/or causes a loss of eagle habitat or displaces eagles through disturbances, i.e. creation of a permanent structure. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts.</p>
UT-LN-20	<p style="text-align: center;"><b>BALD EAGLE NEST OR WINTER ROOST SITES</b></p> <p>The lessee/operator is given notice that surface use or otherwise disruptive activity would not be allowed which would result in an aboveground facility within 0.5 mile of known bald eagle winter roost areas or known bald eagle nest site, which has been active within the past 3 years. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
UT-LN-24	<p style="text-align: center;"><b>BURROWING OWL HABITAT</b></p> <p>The lessee/operator is given notice that surface use or otherwise disruptive activity would not be allowed which would result in an aboveground facility within 0.25 mile of known burrowing owl nests, which have been active within the past 3 years. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
UT-LN-26	<p style="text-align: center;"><b>RAPTORS</b></p> <p>Surveys will be required whenever surface disturbances and/or occupancy is proposed in association with fluid mineral exploration and development within potential raptor nesting areas. Field surveys will be conducted as determined by the authorized officer of the Bureau of Land Management. Based on the result of the field survey, the authorized officer will determine appropriate buffers and timing limitations. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
UT-LN-27	<p style="text-align: center;"><b>PYGMY RABBIT</b></p> <p>The lessee/operator is given notice that surface use or otherwise disruptive activity would not be allowed which would result in an aboveground facility or semi-permanent (e.g., roads, pipelines, reservoirs, etc.) within 300 feet of pygmy rabbit habitat. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>

<b>UT-LN-29</b>	<p style="text-align: center;"><b>UTAH SENSITIVE SPECIES</b></p> <p>The lessee/operator is given notice that no surface use or otherwise disruptive activity would be allowed that would result in direct disturbance to populations or individual special status plant and animal species, including those listed on the BLM sensitive species list and the Utah sensitive species list. The lessee/operator is also given notice that lands in this parcel have been identified as containing potential habitat for species on the Utah Sensitive Species List. Modifications to the Surface Use Plan of Operations may be required in order to protect these resources from surface disturbing activities in accordance with Section 6 of the lease terms, Endangered Species Act, Migratory Bird Treaty Act and 43 CFR 3262.11. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
<b>UT-LN-127</b>	<p style="text-align: center;"><b>DARK KANGAROO MOUSE</b></p> <p>The lessee/operator is given notice that no surface use or otherwise disruptive activity would be allowed that would result in direct disturbance to populations or an individual dark kangaroo mouse. The lessee/operator is also given notice that lands in this parcel have been identified as containing potential habitat for the dark kangaroo mouse which is on the Utah Sensitive Species List. Modifications to the Surface Use Plan of Operations may be required in order to protect this resource from surface disturbing activities in accordance with Section 6 of the lease terms, Endangered Species Act and 43 CFR 3262.11. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
<b>UT-LN-128</b>	<p style="text-align: center;"><b>KIT FOX</b></p> <p>The lessee/operator is given notice that no surface use or otherwise disruptive activity would be allowed that would result in direct disturbance to populations or an individual kit fox. The lessee/operator is also given notice that lands in this parcel have been identified as containing potential habitat for the kit fox which is on the Utah Sensitive Species List. Modifications to the Surface Use Plan of Operations may be required in order to protect this resource from surface disturbing activities in accordance with Section 6 of the lease terms, Endangered Species Act and 43 CFR 3262.11. This notice may be waived, accepted, or modified by the authorized officer if either the resource values change or the lessee/operator demonstrates that adverse impacts can be mitigated.</p>
