Moab Master Leasing Plan - Alternative A (No Action)

Definitions for Mineral Lease Stipulations				
Controlled Surface Use (CSU)	Timing Limitation (TL)	No Surface Occupancy (NSO)	Open (Standard Terms and Conditions)	Closed
Areas identified with a CSU stipulation are open to mineral leasing but identified resource values require special operation constraints.	Areas identified with a TL stipulation are open to mineral leasing but surface use during specified time periods is prohibited to protect identified resource values.	Areas identified with a NSO stipulation are open to mineral leasing but use or occupancy of the surface for exploration and mineral development is prohibited in order to protect identified resource values. The minerals under NSO lands may potentially be developed by directionally or horizontally drilling from nearby lands that do not have the NSO limitation.	Areas open to mineral leasing are subject to existing laws, regulations, and formal orders; and the terms and conditions of the standard lease form.	Areas identified as closed are not open to mineral leasing.
440,356 Acres		133,574 Acres	210,884 Acres	753 Acres

Resources Resulting in Proposed Stipulations for the MLP Alternative A		
CSU/TL	NSO	Closed
Air quality	Three Rivers withdrawal	Suitable Wild and Scenic River segment near Canyonlands National Park
Trucks on Needles and Anticline Overlook Roads	Highway 191 utility corridor	
Filming locations	Moab airport, landfill and Dead Horse Point State Park	
Saline soils	Developed recreation sites (0.5 mile radius)	
Slopes over 20%	Goldbar Hiking Focus Area within Labyrinth SRMA	
Old Spanish Trail (National Historic Trail)	Floodplains, public water reserves, riparian areas and springs (330 foot buffer)	
VRM Class II areas	Areas of Critical Environmental Concern	
State of Utah scenic driving corridors (0.5 mile corridor)	Suitable Wild and Scenic Rivers	
Desert bighorn sheep habitat (Lockhart herd)	VRM Class I areas	
Deer, elk, and pronghorn habitat	Desert bighorn sheep habitat (Potash herd)
