Visitor Information

- The Transcontinental Railroad National Back Country Byway is a narrow roadway with a gravel or dirt surface, no shoulders, and occasional ruts. High clearance vehicles no more that 30 feet in length are recommended.
- Old rail spikes sometimes surface and can cause flat tires. Carry at least one spare.
- Stay alert! Watch for marked detours that skirt unsafe trestles and culverts.
- Be prepared for desert conditions. Temperatures can exceed 100°F in the summer and drop well below zero in the winter. Take plenty of water.
- Services are not available along the 90 mile grade. Fuel is available in Tremonton, Corinne, Snowville, and Montello. Carry extra fuel if needed.
