

LUP AMENDMENT/MAINTENANCE SHEET

Office: Price Field Office

Plan Name: Price Field Office Record of Decision and Approved Resource Management Plan

Maintenance Change Number: G020-2009-002

Program: Minerals and Energy Resources

LOCATION OF CHANGE

Page Number: Map R-25

CHANGE

Insert: See attached revised Map

REASON(S)

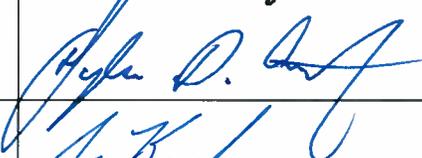

The Price Field Office Record of Decision (page 46) states that the BLM will manage land uses within the occupied and historic prairie dog colonies to preserve the habitat.

In addition, WL-26 on page 85 of the Approved RMP states: "The BLM will manage land uses within occupied and historic white-tailed prairie dog colonies to preserve the habitat (Map R-9)."

As such the BLM has added a controlled surface use (CSU) stipulation for white-tailed prairie dogs into Appendix R-3 (Stipulations for Surface Disturbing Activities) (see LUP maintenance sheet G020-2009-001).

Map R-25 (Fluid Mineral Leasing) needs to be updated to recognize that crucial value year-long white-tailed prairie dog habitats shown on Map R-9 are areas open to leasing, subject to minor constraints.
