## CLEVELAND-LLOYD DINOSAUR QUARRY IS AN INTRIGUING PUZZLE IN THE HISTORY OF LIFE ON EARTH

Here you will discover the greatest concentration of Jurassic dinosaur bones ever discovered. Most individual bones are in great shape, but intact skeletons aren't found. It is a paleontological puzzle.

What caused so many carnivorous dinosaurs to die here 150 million years ago, and why are their bones so scattered, yet so well preserved? Join paleontologists as they piece together clues from the past to reassemble the story of this amazing place.
