State Director
Utah State Office

Date

CONSULTATION AND COORDINATION 5

Resource specialists in the Diamond Mountain Resource Area and Vernal District prepared the Diamond Mountain Resource Management Plan/Environmental Impact Statement (RMP/EIS). The Vernal District Office and Utah State Office management teams and resource program leaders provided technical and policy reviews and suggestions.

Consultation, coordination, and public involvement have occurred throughout the process through public meetings, informal meetings, individual contacts, news releases, and *Federal Register* notices.

Initial steps in the process began in 1988 with the development of a preparation plan. Other early efforts included research, inventory, analysis, and interagency coordination.

PUBLIC PARTICIPATION

A public participation plan was prepared to ensure that the public would have numerous opportunities to be actively involved in the planning and environmental process. Both formal and informal input have been encouraged and used.

A notice published in the *Federal Register* in January 1989, indicated the intention of the BLM to prepare a resource management plan and requested information on resources and proposed future uses within the Diamond Mountain Resource Area. Nominations for ACEC consideration were also requested. Letters and a news release requesting information on the potential for occurrence of minerals were mailed in spring 1989.

A news release was issued in September 1989, and notices were mailed to solicit comments on a set of proposed planning criteria.

A news release was issued in January 1991, and a brochure was mailed providing information on the results of the ACEC nomination process and subsequent analysis as well as a brief summary of the alternatives. Invitations to review the Management Situation Analysis and provide nominations for Wild and Scenic River designation were also extended.

The draft Diamond Mountain RMP/EIS was filed with the Environmental Protection Agency (EPA) in December 1991. The EPA's notice of availability, published in the *Federal Register* of January 3, 1992, (page 287) established the 90-day public comment period expiring April 1, 1992. BLM published a notice of availability and an announcement of the public meeting schedule in the *Federal Register* dated December 30, 1991 (pages 67326-67327).

To facilitate review of the draft RMP/EIS, public meetings were held in Vernal, Salt Lake City, Duchesne and Manila during the period January 22 through 30, 1992. A total of about 80 people attended these meetings.

The Vernal District Advisory Council has been kept apprised of the RMP progress, and comments and recommendations of the members have been solicited.

Formal and informal meetings have been held with many members of the ranching and minerals industries and with other interest groups and with Uintah Basin governmental agencies and entities. A summary of comments generated from these meetings is on file in the Vernal District.

CONSISTENCY

Coordination with other agencies and consistency with other plans were accomplished through frequent communications and cooperative efforts between the BLM

and involved federal, state, and local agencies organizations, and the Ute Indian Tribe.

The Utah Governor's Resource Development Coordinating Committee (RDCC) has been heavily involved in the development of this RMP/EIS. Numerous meetings and a field tour were conducted to assure consistency with the state's ongoing plans. The RMP team reviewed the land use plans for Daggett, Duchesne, and Uintah Counties to ensure consistency. BLM personnel have met with the respective county planners and commissioners to promote greater understanding of goals, objectives, and resources of both the counties and the BLM. Additional opportunities to participate were extended to the Ute Indian Tribe and the County Commissioners of the three counties involved.

DISTRIBUTION OF THE RMP/EIS

Approximately 650 copies of the draft RMP/EIS were distributed to federal, state, and local governmental agencies, Ute Indian tribal organizations, congressional and legislative offices, private interest groups and organizations, business institutions, and individuals. Distribution was by volume mailing; however, many copies were also distributed at public meetings and in response to requests for the document. Copies of the document were also available for public review and distribution in the BLM Diamond Mountain Resource Area Office, Vernal District Office, and Utah State Office.

The planning process includes an opportunity for individuals to protest any part of the proposed RMP believed to be in error. Only those persons or organizations who participated in our planning process may protest. A protesting party may raise only those issues which were submitted for the record during the planning process. Protest criteria and procedures are described in the State Director's letter at the beginning of this document.

This proposed RMP/final EIS is being distributed to approximately 700 addresses garnered during the development of the draft and in response to the draft RMP document. The following list is representative of the agencies, organizations, and individuals indicating an interest and participating in the development of the Diamond Mountain RMP. This list is not inclusive. A complete list is on file at the Vernal District Office.

PUBLIC COMMENT ON THE DRAFT RMP/EIS

During the comment period January 3 through April 1, 1992, 286 letters were received on the Draft Diamond Mountain Resource Management Plan and Environmental Impact Statement. However, several letters were received after the comment period closed and too late to be individually responded to in this document. The concerns and issues raised in these letters have been expressed in other comment letters which have been responded to and which are reprinted here.

In general, the comments were divided on the issue of amount and degree of needed restrictions: 101 letters expressed the draft RMP was not restrictive enough, 90 letters expressed the document was too restrictive. Nineteen letters expressed satisfaction with the present level of management. The majority (52 percent) of those letters received did not state support for any of the alternatives presented. Of the letters expressing an opinion, 69 stated support for Alternative A; 35 for Alternative E; 10 each for Alternatives B and C; and 3 for Alternative D.

Both support and opposition were expressed regarding OHV use designations, wildlife reintroductions and habitat protection, and public access to areas on Diamond

Chapter 5 - Coordination and Consultation

Mountain Plateau. There were five letters strongly opposed to the reintroduction of black-footed ferrets. Approximately 11 letters expressed strong opposition to increased restrictions due to raptor protection/enhancement prescriptions. Twenty letters were opposed to increases in big game forage assignments at the expense of livestock. Thirteen letters addressed concerns about water rights and restrictions to future impoundments and objected to any wild and scenic river designations. A large number of the comments supported the ACEC designations; however, most believed inadequate protection is provided for these areas; e.g., OHV, mining, and grazing are considered inappropriate uses within an ACEC. Three letters believed inadequate public input was sought during development of the draft. Six comments expressed strong opposition to bear baiting on public lands. Five letters believed the economic analysis was weak and unrealistic.

Input on the RMP/EIS is appreciated, and each comment was considered in the preparation of this proposed plan and final EIS.

Of the 286 letters received, 146 are reprinted here. Each letter was assigned a reference number when it was received for use in responding to comments. Table 5-1 provides an index of all the letters received and references our response. Those letters not reprinted are noted "NR". Specific comments within each letter are referenced by a two-number code (for example 113-3). The first number refers to the letter; the second number refers to a specific comment within the letter. Our responses are referenced by the same code.

Letters not reprinted are represented by identical or very similar letters. For example, Comment Letter 13 is identical or very similar to 32 letters expressing concern about OHV use. Also, many letters included attachments (maps, or other references) which are not reproduced due to space limitations and printing costs. All letters and complete attachments are on file in the area office.

LIST OF PREPARERS

The following lists in alphabetical order the principal players in the preparation of this plan. Numerous other individuals from the resource area, district, and state offices as well as other federal, state, county representatives and public individuals provided valuable assistance in the formulation of this plan. For brevity only, just those district and state office individuals providing major support and assistance are listed. The contributions of those not listed are also deeply appreciated.

Tom Dabbs, DMRA Wildlife Biologist. B.S. Wildlife Management, Humboldt State University, Arcata, California. Member of the core team since its inception covering wildlife, special status animal species, and fire matters. He has worked for 13 years with BLM.

Steve Hartmann, DMRA Supervisory Range Conservationist. B.S. Range Management, University of Montana, Missoula. Member of the core team from its inception covering livestock, soils and water, and vegetation (including special status plant species). He has worked for 14 years with BLM, the last 3 in Vernal.

Tim Ingwell, Vernal District Geologist. B.S. Geology, University of New Mexico, Albuquerque, M.S. Geology, University of California at Los Angeles. Member of the core team from the writing of the RMP/EIS, covering fluid minerals and groundwater concerns. Tim comes from the private sector, with 4 years of experience with BLM.

Dave Moore, DMRA Outdoor Recreation Planner. B.S. Forestry, Utah State University, Logan. Member of the core team from its inception covering recreation (including Wild and Scenic River evaluation) and woodland concerns. Dave also wrote the Cultural Resources and Hazardous Materials sections from information prepared by others. Dave has 27 years experience with BLM.

Jean Nitschke-Sinclear, DMRA Range Conservationist. B.S. Range Management, Utah State University, Logan. Served as Technical Coordinator during development of the draft RMP. Assumed duties of Team Leader following transfer of Penny Smalley. She has worked for 19 years with BLM.

Phyllis Phillips, Vernal District Word Processor Operator. Phyllis performed the monumental task of completing the word processing of the RMP/EIS and all the unseen written documentation behind the document. Phyllis has 7 years experience with BLM.

Dave Plume, DMRA Geologist. B.S. Geology, Metropolitan State College, Denver. Dave assumed the Vernal District GIS Coordinator's responsibilities during the preparation of the proposed plan/final EIS document. As such he had responsibilities for the preparation, analysis format, and depiction of GIS data. He has worked for 5 years with BLM.

Earle Smith, Vernal District GIS Coordinator. B.S. Forestry, Utah State University, Logan; M.S. Forestry, Oregon State University, Corvallis. Earle was GIS Coordinator and member of the core team from its inception through the preparation of the draft RMP/EIS.

Chapter 5 - Coordination and Consultation

Penny Smalley, Vernal District Planning Chief. B.S. Business, University of Colorado, Boulder. Member of the core team from its inception through publication of the draft document serving as Team Leader and management coordinator. Penny has worked for 14 years with BLM.

Kathy Stubbs, Vernal District Realty Specialist. Member of the core team from its inception through the comment period on the draft document, covering lands and realty. She also wrote the air, climate and socioeconomic sections from information prepared by others. Kathy has worked 15 years with BLM. Kathy was instrumental in entering the resource area's myriad land status data into a complicated yet efficient GIS database.

Ron Trogstad, DMRA Area Manager. B.S. Biological Science, University of Utah, Salt Lake City. Member of the core team from its inception, providing coordination and management assistance. Ron has worked 25 years with BLM.

SPECIAL ASSISTANCE

Vernal District Office

Tanya Bullock, GIS Coordinator. Tanya assumed the duties of GIS Coordinator following the transfer of Earle Smith during the preparation of the draft document.

Keith Chapman, Soils Scientist. Keith formulated the soils and surface water information in the Management Situation Analysis and oversaw the input of soils and watershed information into the GIS database.

Gerald Kenzcka, Petroleum Engineer. Jerry formulated the fluid minerals section of the Management Situation Analysis and oversaw the input of the fluid minerals data into GIS.

Dwain Nelson, Range Conservationist. Dwain assisted in the mapping of soils inventory and ecological condition information in the Diamond Mountain and Three Corners areas of the resource area.

Blaine Phillips, Archeologist. Blaine formulated the cultural and paleontological section of the Management Situation Analysis and oversaw the input of such information into GIS.

Kyle Smith, Cartographic Technician. Kyle inputted spatial inventory information into the GIS database for use by the team.

Jo Ann Stroh, Computer Specialist. Jo Ann prepared the graphics and photographics for presentation. She also

developed the interactive computer system for use during review.

Ray Tate, Public Affairs Officer. Ray lent his editorial assistance and wrote news releases during the planning process.

Joy Wehking, Vernal District Supervisory Realty Specialist. Joy provided technical and editorial assistance in the presentation of the lands and realty sections of the proposed plan.

Karl Wright, Hydrologist. Karl assisted in the inputting of riparian, floodplain, and watershed data into the GIS database. He also aided in the formulation of the Soil and Water section of the Management Situation Analysis.

Utah State Office

Carla Garrison, Cartographer. Carla provided technical oversight for the digitizing of the original information into the GIS database.

Don Gray, Supervisory Cartographer. Don coordinated the mapping effort at the State Office level.

Steve Howard, Planning Coordinator. Steve provide technical oversight on the various facets of the planning effort and coordinated state office input and support.

Lynn Roth, Cartographer. Lynn provided technical coordination and oversight for preparation of the maps in the proposed plan/final EIS.

Jack Sheffey, GIS Coordinator. Jack provided training, support, and guidance in the use of GIS as an analysis tool.

Kezia Snyder, Writer Editor. Kezia provided technical editing to the proposed plan/final EIS document.

Bill Wagner, Physical Scientist. Bill prepared the air and climate sections of the Management Situation Analysis. Bill also provided assistance with Hazardous Materials information.

Jeff Williams, Economist. Jeff provided the socio economic data and analysis on the proposed plan/final RMP.

Others

The Bureau's Phoenix Training Center provided us with many of the graphics and drawings used in this document.

Chapter 5 - Coordination and Consultation

Patti Britton designed the chapter headings from an original 1870 survey photo of Swallow Canyon by USGS surveyor W.H. Jackson (333a).

Mary Read lent her expertise in impact analysis during the final phase of the draft document's preparation.

Trina Strong provided the artwork for the cover.

Debbie Wheeler and Corinne Jacobsen drew the vegetation artwork used in the document.

OTHER ASSISTANCE

Vernal District

David E. Little, District Manager
Bruce Aldridge, Cartographer
Howard Cleavinger, Assistant District Manager Minerals
Duane DePaepe, Environmental Coordinator

Dean Evans, Assistant District Manager Lands and Renewable Resources
Elizabeth Goode, Assistant District Manager, Administration
Gary Hunter, Assistant District Manager Operations
Ed Wehking, Fire Management Officer

Utah State Office

Mike Barnes, Land Law Examiner
George Diwachak, Environmental Scientist
Jim Fouts, Geologist
Terry Graham, Writer-Editor
Maggie Kelsey, Environmental Specialist
Howard Lemm, Deputy State Director Mineral Resources
Bob Lopez, Land Law Examiner
Dick Page, Natural Resource Specialist
Gary Peterson, Cartographic Technician
Shelley Smith, Archeologist
Ted Stephenson, Chief, Branch of Operations
Randy Weatherly, Computer Programmer
Jeff Williams, Economist
