

LAND USE PLAN (LUP) AMENDMENT / MAINTENANCE SHEET

Plan Name: Record of Decision and Approved Resource Management Plan
Location: Bureau of Land Management – Vernal Field Office
Program: Saleable Minerals and Mineral Materials
Revision: 1 Maintenance Change Sheet No.: 2010-01

LOCATION AND DESCRIPTION OF CHANGES¹

Item	Page	Paragraph	Change Description
2010-01-001	100	MSA-3	389,788 - 390,306 acres will be available for mineral material disposal with standard and special stipulations.
Figure 9a			

RATIONALE / JUSTIFICATION

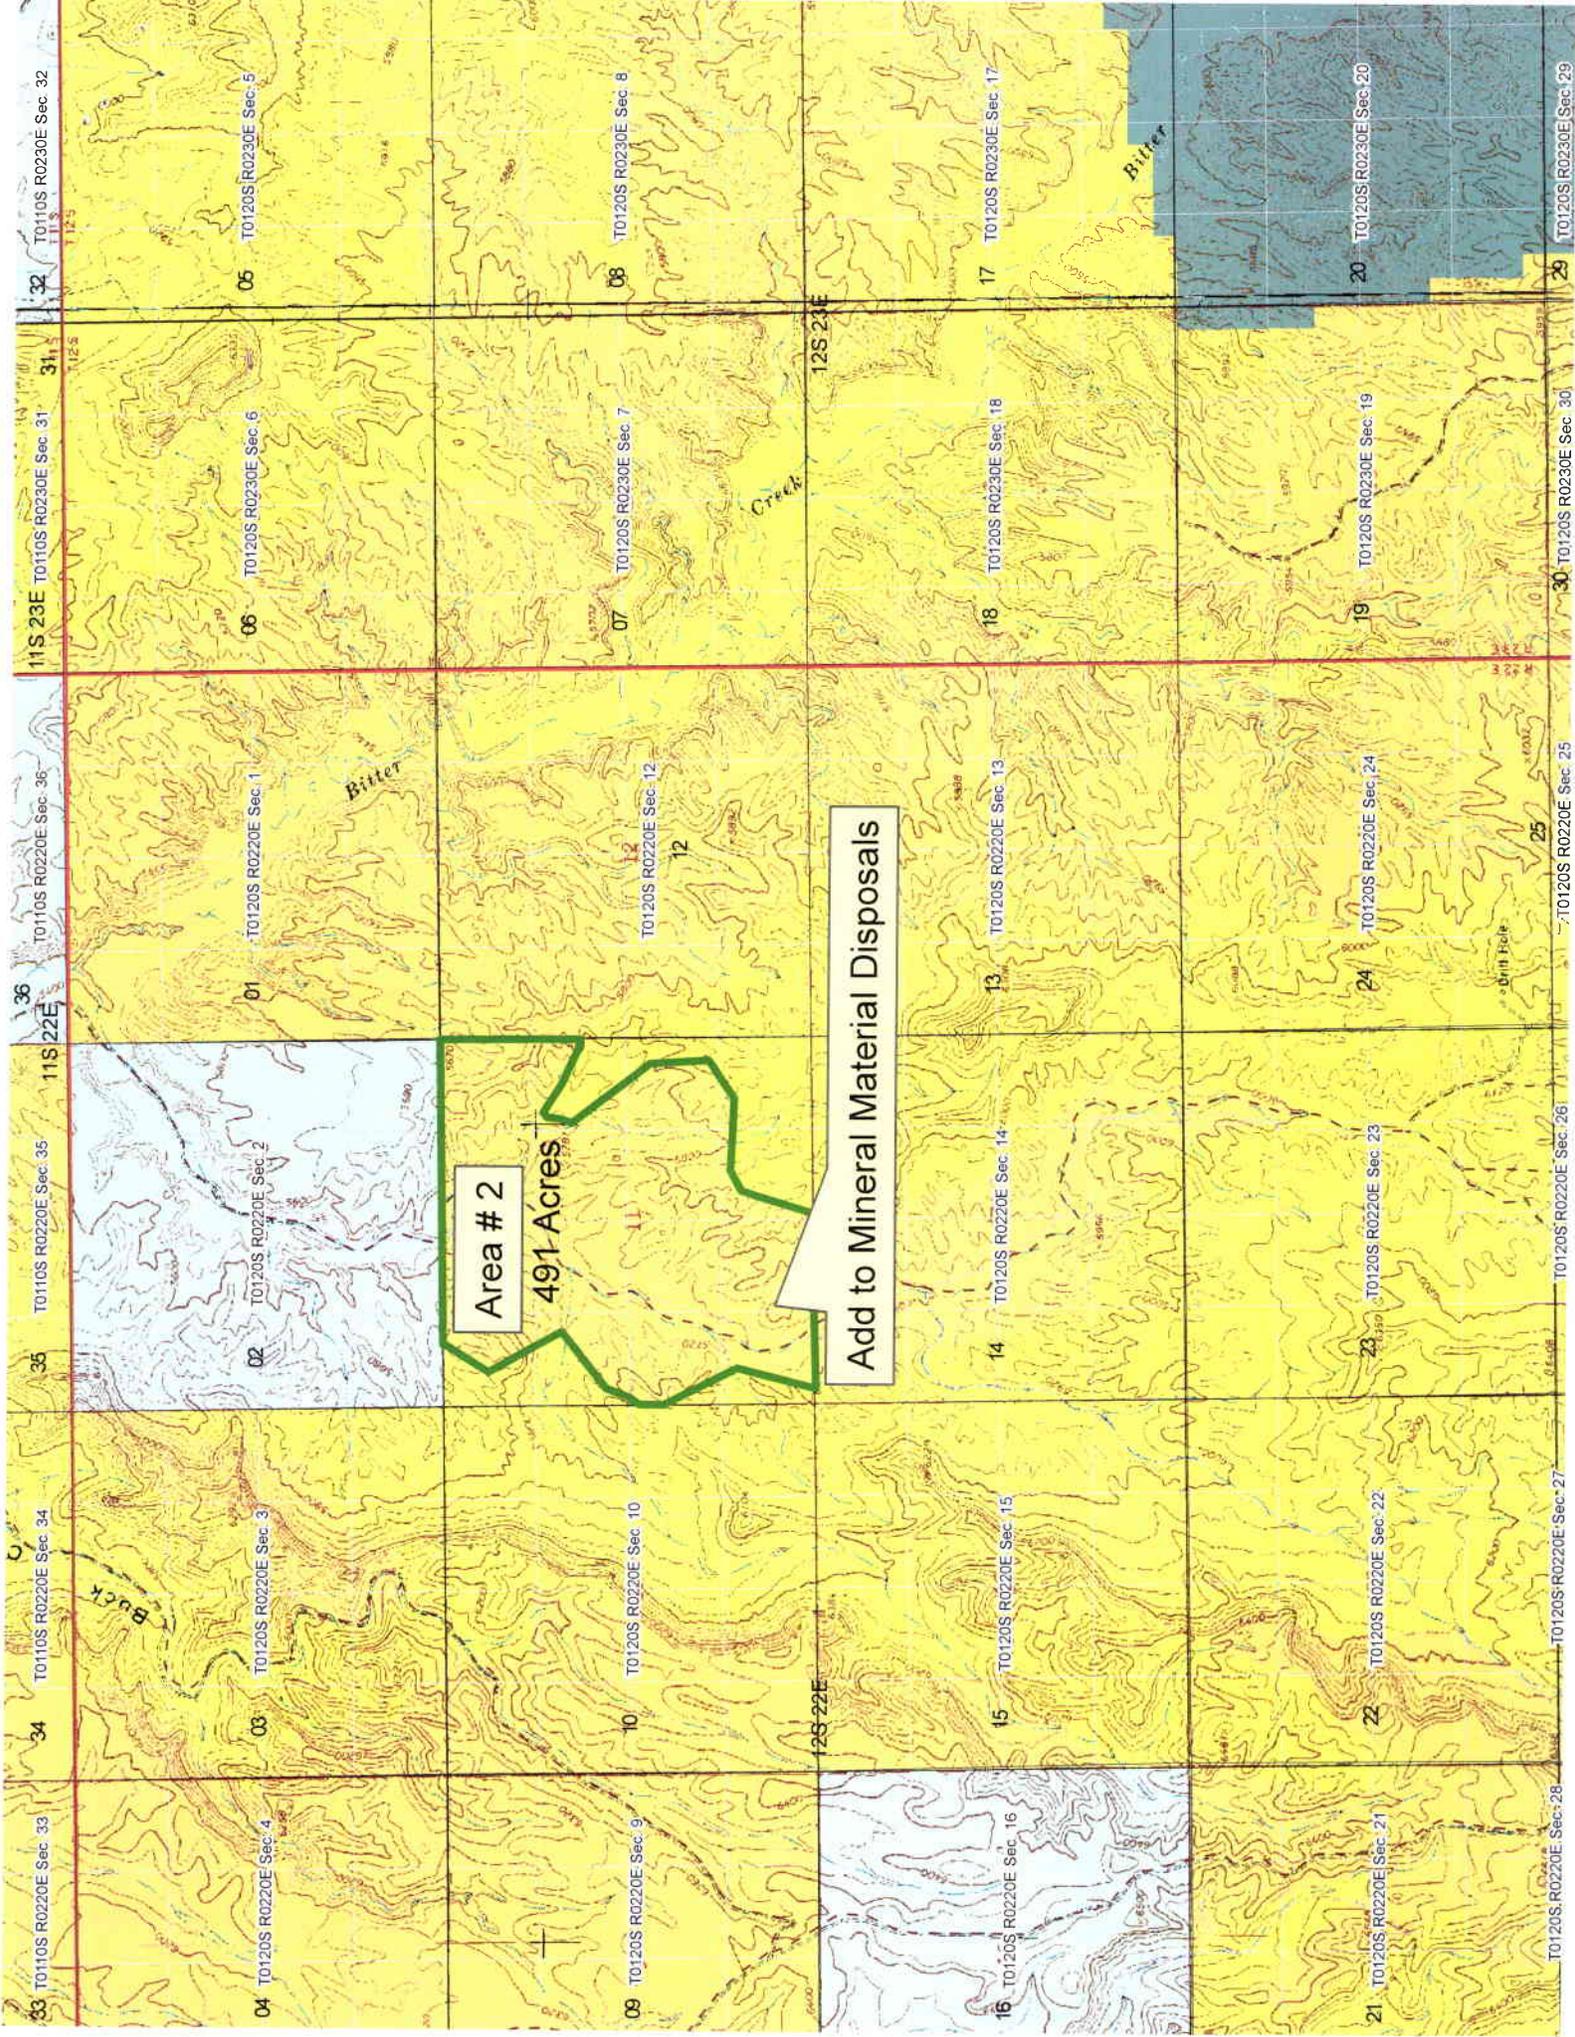

Two areas were inadvertently left off the mineral materials map (Figure 9a) for the Vernal Approved RMP. Both areas have a long history of permitted use. (See attached maps for location.)

- Area 1 (27.2 acres) Section 24, T8S R15E SL Meridian, Duchesne County. Area 1 is a sand and gravel pit. Although Duchesne County does not use this area on a regular basis (i.e., every 5-7 years), it has used this location for several decades. The material gathered here used for road surfacing / maintenance. Duchesne County is required to obtain the necessary permits from the BLM before material is removed.
- Area 2 (491.2 acres) Section 11, T12S R22E SL Meridian, Uintah County. Area 2 is a dimension stone area. Dimension stone is natural stone or rock that has been selected and fabricated (i.e., trimmed, cut, drilled, ground, or other) to specific sizes or shapes. The dimension stone collected from this area is often used as a landscaping product. This area has been used for many years. Private and commercial users are required to obtain the necessary permits from the BLM before material is removed.

The acreage identified in Management Decision MSA-3 from the Vernal ROD / Final EIS is adjusted to include these two additions. Figure 9a is likewise adjusted to show these two additions.

	SIGNATURES	DATE
Program Lead	Robin L. Hansen	01/19/2010
Environmental Coordinator	Kelly Buckner	01/19/2010
Field Office Manager	Michael Stiewig	01/19/2010
Copy sent to USO Planning:	Kelly Buckner	01/19/2010
