

Bureau of Land Management: Managing Energy Resources on America's Public Lands

The Bureau of Land Management's new Online Oil and Gas Permitting system is designed to increase the efficiency and transparency of the oil and gas drilling permit review and approval process.

The enhanced features of the BLM's online permitting system will improve the permitting process

Hard Copy Applications

Old system

100% Electronically Submitted Applications

New system

Improved Tracking

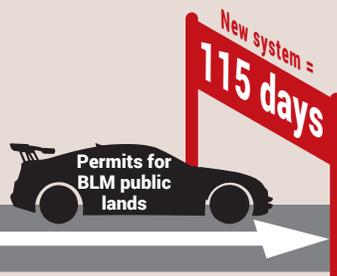

Automated Completion Checks

Improved Workload Management

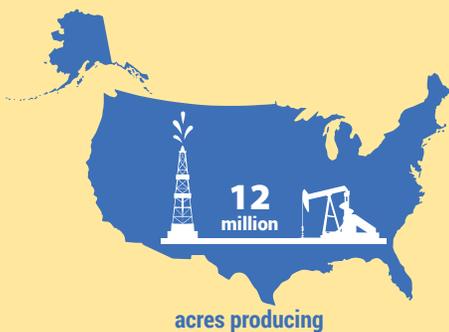

The BLM's improved online permitting system will reduce processing times for most permits by 50%

Current average permit processing time is 220 days

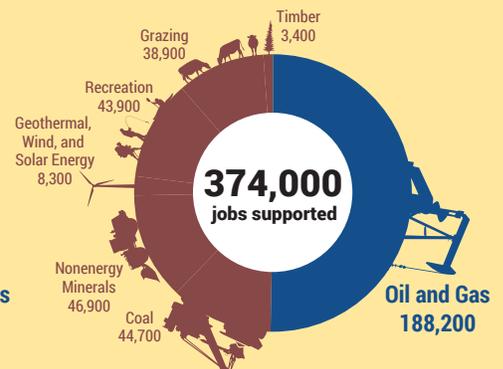

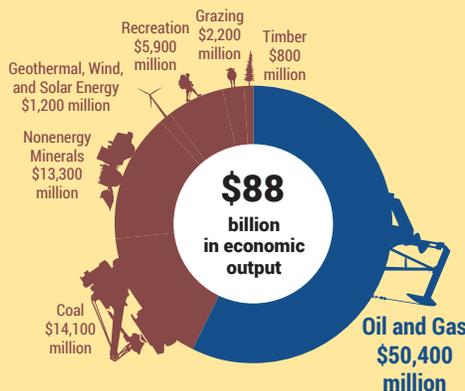

Processing Time

Economic contributions from oil and gas on BLM public lands

approximately 100,000 wells

\$2 billion

in revenue generated in 2015

50% state and local governments

50% U.S. Treasury

54,000 drilling permits approved in the last 10 years
