

27th Annual National Association of Recreation Resource Planners Conference

May 6-10, 2007 Austin, Texas

Creating Planning Connections: Linking Trails, Rivers, Byways and Greenways

The NARRP national conference is the premier annual conference that uniquely focuses on the topic of outdoor recreation planning. We believe that the advancement of the recreation planning profession is impeded by the organizational walls we tend to operate within across the hundreds of recreation providers in America. Thus, the goal of the annual NARRP recreation planning conference is to help remove these walls and facilitate the interagency exchange of best practices among local, state, and federal agencies, and the private and non-profit sectors.

Our conference motto is:

Helping recreation planners see across their profession!

Conference Partners:

National Association of State Park Directors
National Park Service
U.S. Forest Service
Bureau of Land Management
Bureau of Reclamation

Lower Colorado River Authority
Texas Parks and Wildlife Department
Austin Parks and Recreation Department
Steven F. Austin State University
