

**Optional Comment Form for the Revision of the  
Desk Guide to Cooperating Agency Relationships**

<b>Question</b>	<b>Comments</b>
What are lessons learned from the first eighteen months of implementing BLM's new regulations and policy regarding cooperating agencies (CAs)?	
How has this new policy changed your way of doing business?	
What are some of the best practices and practical insights that have fostered successful CA relationships?	
What are some specific CA relationships that can be highlighted (name of county or state entity, name of project, some of the factors that made the relationship successful)?	
What issues or challenges are raised by extending the CA requirement to include all EIS-level projects?	
What issues or challenges are raised by extending the CA requirement to multi-state programmatic EISs—for example regarding energy corridor designation or oil shale development?	
What are some of the benefits to be gained by extending the CA requirement to include all EIS-level projects and multi-state programmatic EISs?	
What topics should be added, clarified, or deleted in the revised Desk Guide? (Please specify page or section where applicable.)
