

I Spy Scramble

You can see many things on a tour of BLM lands. Depending on where you travel, you might see: mountains, rivers, deserts, glaciers, caves, insects, birds, reptiles, fish, mammals, flowers, and trees, as well as fossils, arrowheads, oil wells, and wind turbines. Below is a list of these things, but the words are all scrambled. First unscramble the words. Then answer the question at the bottom of the page by copying the letters from the numbered boxes into the numbered spaces.
