

### Section 368 Corridors Listing

The following provides a listing of the corridors designated by the Bureau of Land Management (BLM) pursuant to Section 368 of the Energy Policy Act of 2005 (Public Law 109-58) (EPA) under the Record of Decision (ROD) issued by the BLM in January 2009 for the Final Programmatic Environmental Impact Statement, Designation of Energy Corridors on Federal Land in the 11 Western States (DOE/EIS-0386, November 2008). Please note that this list does not include those corridors identified in the PEIS and designated by the U.S. Forest Service ROD that are not located on BLM lands.

The corridors identified in **bold, red** font represent those that have been designated Corridors of Concern (COCs) under the Settlement Agreement for *Wilderness Society v. United States Department of Interior*, No. 3:09-cv-03048-JW (D.N.D. Cal.). The COCs are those corridors that were identified by the plaintiffs as having specific environmental issues; these resource concerns are included below and are taken from Attachment A to the Settlement Agreement.
