

# PLAN CHANGE NO.

Buffalo RMP (April 2001), Map 4 referenced  
on page 11

DESCRIBE EXACTLY WHAT IS TO BE DELETED, ADDED, REWRITTEN, ETC. IN MOST CASES, THE NEW TEXT SHOULD BE STATED VERBATIM.

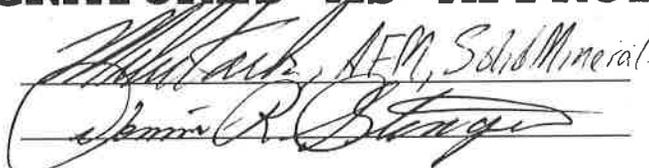

**CHANGE :** Map 4 in the Buffalo RMP update of April 2001 on page 11 is incorrect. The correct map is Figure 3, found in Appendix D, Coal Screening Process.

DESCRIBE EXACT RATIONALE FOR THE CHANGE, TO INCLUDE REFERENCE MATERIAL (I.E., EA, RMP, IM, ETC).

**REASON:** The Buffalo RMP (April 2001) is maintained to correct a discrepancy between two maps in that document. Two maps portraying the public lands with coal development potential are slightly different. One map is in the body of the narrative (map 4, page 11); while the other is in the appendix (Figure 3, Appendix D, Coal Screening Process). The correct map is the one in the appendix and the map in the narrative is changed by this maintenance action to match the map in the appendix.
