

# Lands with Wilderness Characteristics Inventory – 2011 Update

**BLM**

Worland Field Office, Wind River/Bighorn Basin District, Wyoming

2011

The BLM's multiple-use mission is to sustain the health and productivity of the public lands for the use and enjoyment of present and future generations. The Bureau accomplishes this by managing such activities as outdoor recreation, livestock grazing, mineral development, and energy production, and by conserving natural, historical, cultural, and other resources on public lands.

# Inventory of Lands with Wilderness Characteristics – 2011 Update

## Highlights of Changes

---

The Bureau of Land Management Worland Field Office updated the Lands with Wilderness Characteristics Inventory to incorporate Instruction Memorandum 2011-154: *Requirement to Conduct and Maintain Inventory Information for Wilderness Characteristics and to Consider Lands with Wilderness Characteristics in Land Use Plans*, and to respond to additional information.

The following pages are excerpts from the Lands with Wilderness Characteristics Inventory files maintained by the Worland Field Office. For additional information on the Lands with Wilderness Characteristics Inventory, please contact the Worland Field Office at 101 South 23<sup>rd</sup> Street, Worland, WY, 82401; (307) 347-5100 or [worland\\_wymail@blm.gov](mailto:worland_wymail@blm.gov) (please include “Lands with Wilderness Characteristics” in the subject line).

For the 2011 update, only those areas found to possess wilderness characteristics are included. The 2011 update revises the identification name assigned to each unit. Table 1 provides the 2009 inventory name and the corresponding 2011 inventory identification number. The identification number corresponds to the first wilderness characteristics inventory conducted in 1979.

As a result of new information and field verification by staff of the Worland Field Office, units 577 AK and 622 AK were found to not contain wilderness characteristics. Boundary adjustments were made to several units. Those adjustments are displayed on the following maps. The blue line depicts the unit boundary in 2009 while the red line shows the 2011 unit boundary.

**Table 1 Cross-walk between 2009 Name and 2011 Identification Number**

Note to Accompany: Documentation of Current Wilderness Inventory Conditions

By: Worland Field Manager, Karla Bird,

September 30, 2010

The Worland FO interdisciplinary team (IDT) did a collective review of the field office for areas with wilderness characteristics in 2009, in preparation for the Bighorn Basin RMP.

During 2010, and continuing in 2011, new staff were retained and given the assignment to document in photographs, the wilderness characteristics (to the extent they can be photographed.)

While the employee uses the "Documentation of Current Wilderness Inventory Conditions" form, it is not meant as a complete re-inventory of the work previously completed by the entire IDT. Rather, it is meant as an addendum to the previous documentation forms.

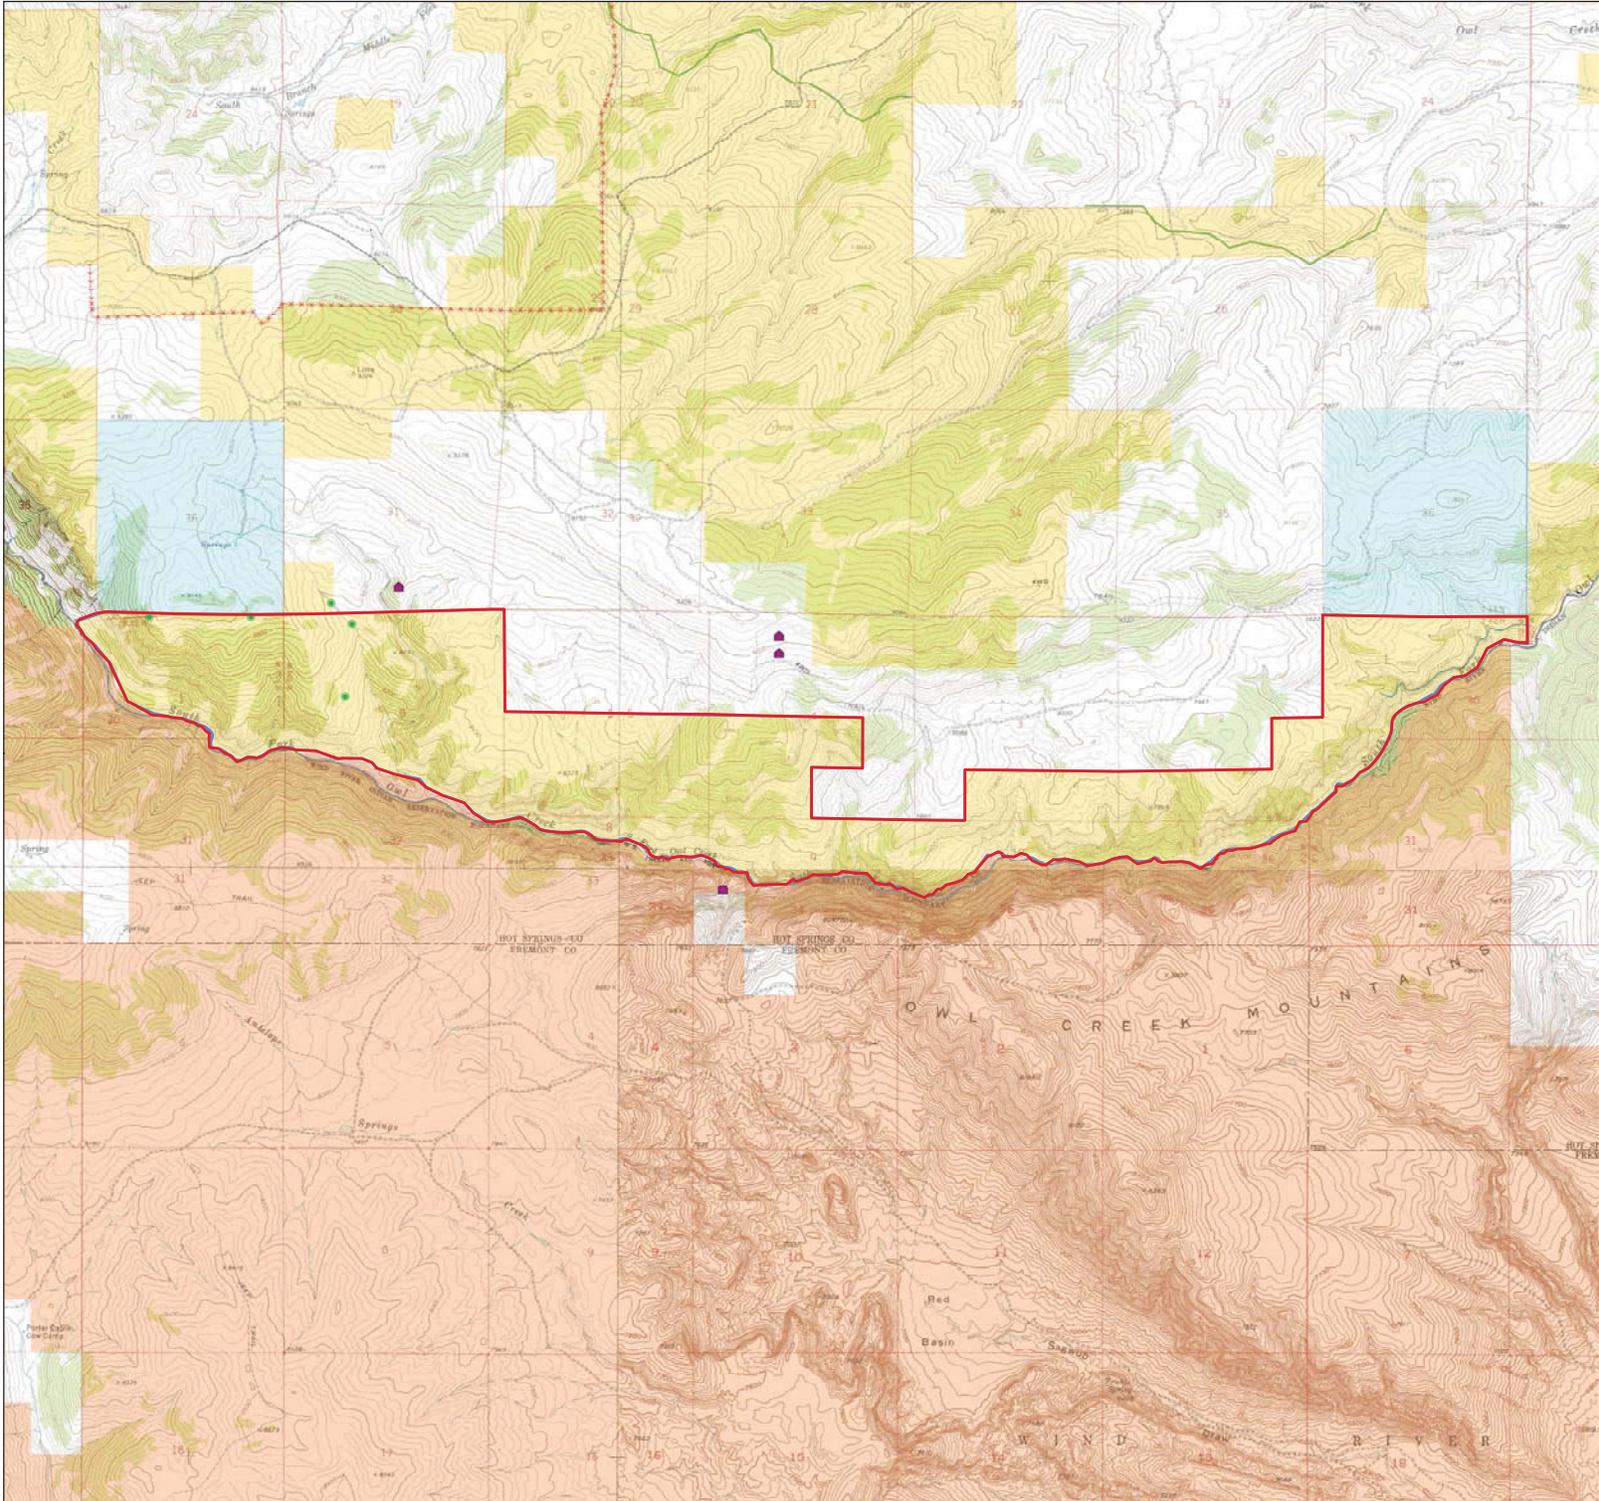

Only in the event where the field employee taking photographs may come up with information that may suggest a change to the previous 2009 finding, will the Field Manager sign these new forms. This would occur following a get - together by the entire IDT, so that any new information can be collectively considered, and a collective IDT recommendation to the Field Manager result.

Karla Bird

9/30/2010

**FORM 1**

**Documentation of BLM Wilderness Characteristics Inventory Findings from Previous Inventory on Record**

1. Is there existing BLM wilderness characteristics inventory information on all or part of this area?

No (Go to Form 2) Yes  X  (If yes, and if more than one area is within the area, list the unique identifiers for those areas.):

a) Inventory Source: BLM Original Inventory 1979

b) Inventory Area Unique Identifier(s): WY-010-130

c) Map Name(s)/Number(s): WY-010-130 Base Map

d) BLM District(s)/Field Office(s): Worland FO

**2. BLM Inventory Findings on Record:**

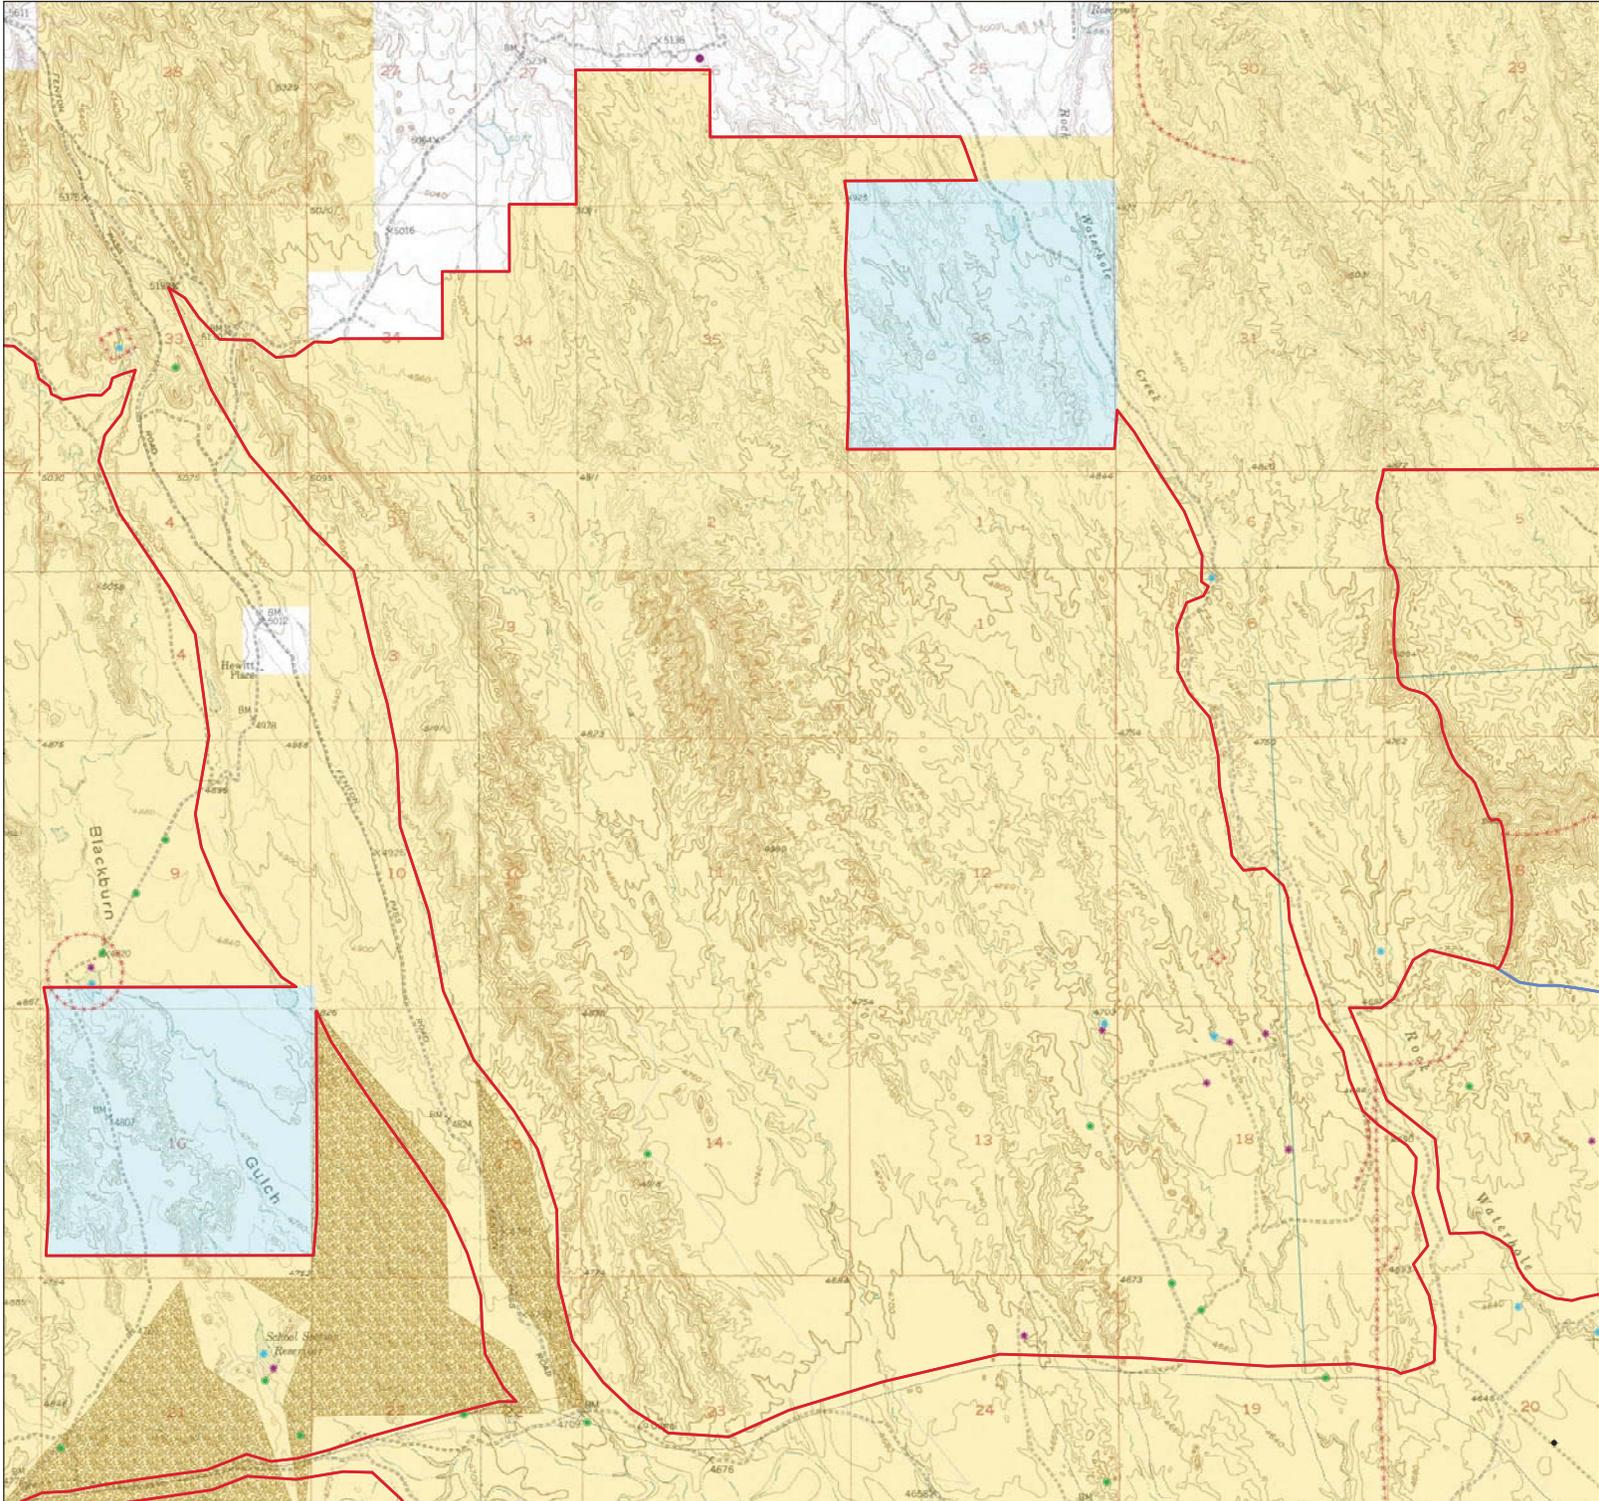

Existing inventory information regarding wilderness characteristics (if more than one BLM inventory area is associated with the area, list each area and answer each question individually for each inventory area):

Inventory Source: BLM, Worland FO

Area Unique Identifier	Sufficient Size? Yes/No (acres)	Naturalness? Yes/No	Outstanding Solitude? Yes/No	Outstanding Primitive & Unconfined Recreation? Yes/No	Supplemental Values? Yes/No

**FORM 1**

**Documentation of BLM Wilderness Characteristics Inventory Findings from Previous Inventory on Record**

1. Is there existing BLM wilderness characteristics inventory information on all or part of this area?

No (Go to Form 2) Yes  X  (If yes, and if more than one area is within the area, list the unique identifiers for those areas.):

a) Inventory Source: BLM Original Inventory 1979

b) Inventory Area Unique Identifier(s): WY-010-131

c) Map Name(s)/Number(s): WY-010-131 Base Map

d) BLM District(s)/Field Office(s): Worland FO

**2. BLM Inventory Findings on Record:**

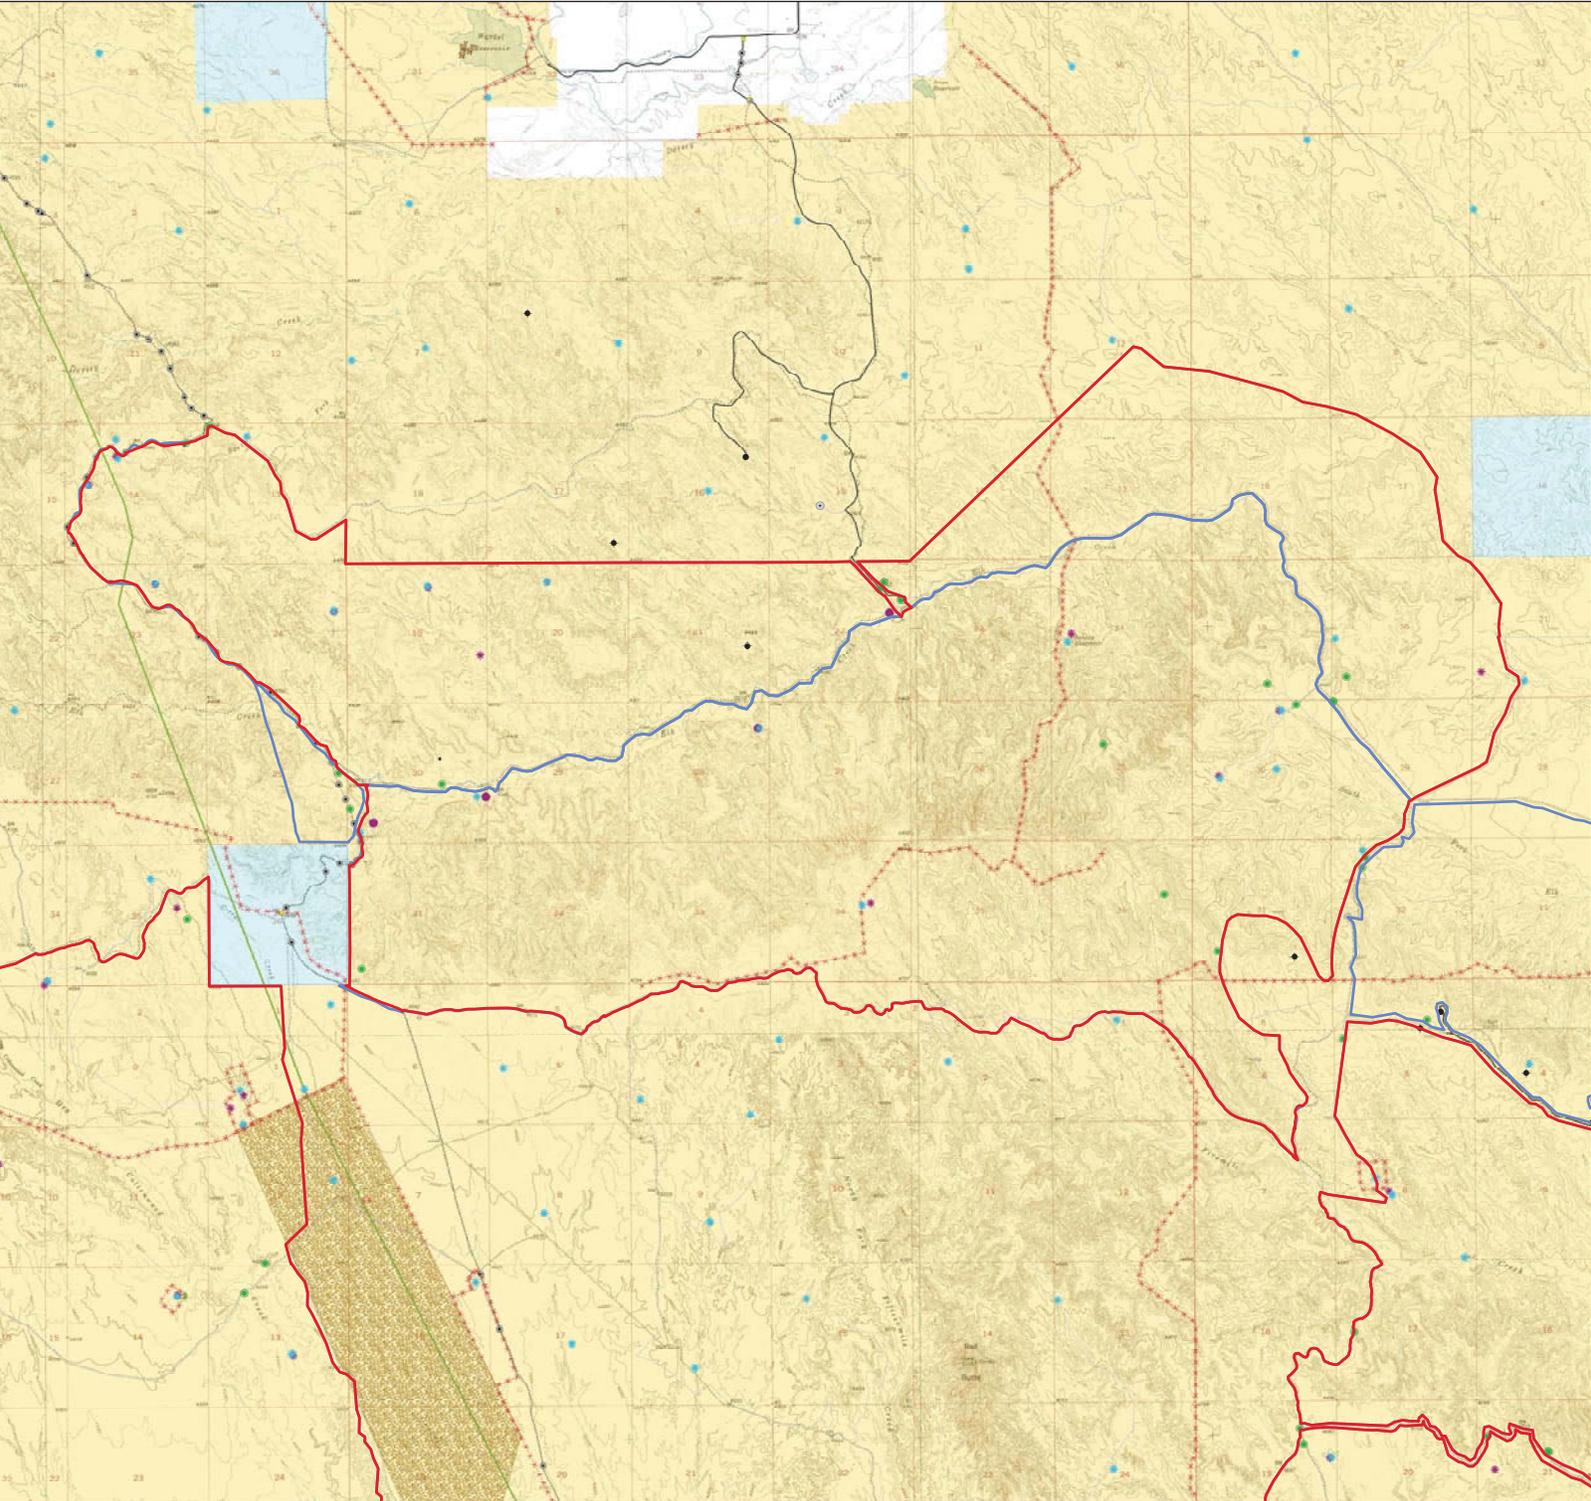

Existing inventory information regarding wilderness characteristics (if more than one BLM inventory area is associated with the area, list each area and answer each question individually for each inventory area):

Inventory Source: BLM, Worland FO

Area Unique Identifier	Sufficient Size? Yes/No (acres)	Naturalness? Yes/No	Outstanding Solitude? Yes/No	Outstanding Primitive & Unconfined Recreation? Yes/No	Supplemental Values? Yes/No

**FORM 1**

**Documentation of BLM Wilderness Characteristics Inventory Findings from Previous Inventory on Record**

1. Is there existing BLM wilderness characteristics inventory information on all or part of this area?

No (Go to Form 2) Yes  X  (If yes, and if more than one area is within the area, list the unique identifiers for those areas.):

a) Inventory Source: BLM Original Inventory 1979

b) Inventory Area Unique Identifier(s): WY-010-221

c) Map Name(s)/Number(s): WY-010-221 Base Map

d) BLM District(s)/Field Office(s): Worland FO

**2. BLM Inventory Findings on Record:**

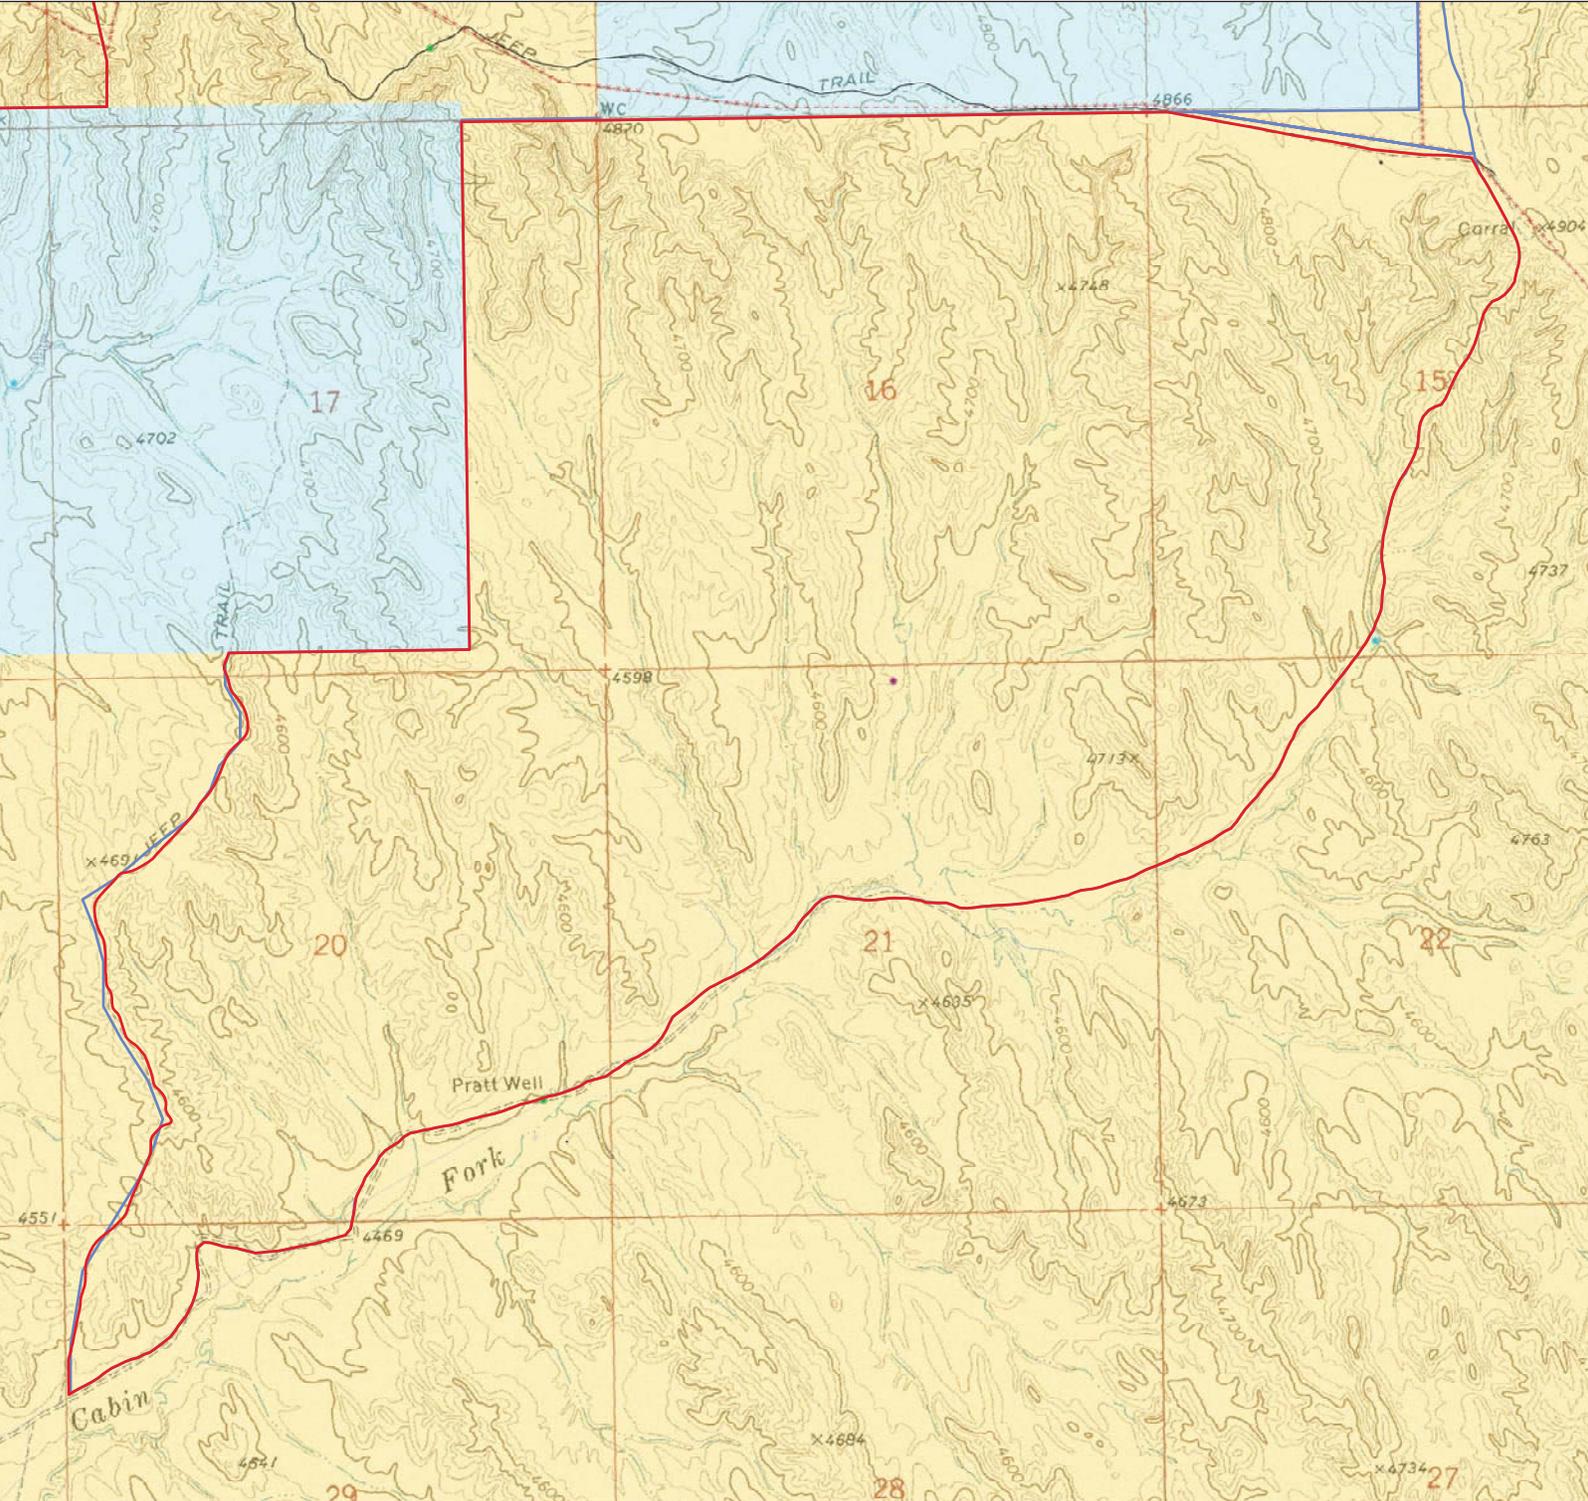

Existing inventory information regarding wilderness characteristics (if more than one BLM inventory area is associated with the area, list each area and answer each question individually for each inventory area):

Inventory Source: BLM, Worland FO

Area Unique Identifier	Sufficient Size? Yes/No (acres)	Naturalness? Yes/No	Outstanding Solitude? Yes/No	Outstanding Primitive & Unconfined Recreation? Yes/No	Supplemental Values? Yes/No
