

CONTENTS

This is Volume II. It contains Chapters V through XI of Part I, the regional analysis.

SUMMARY TABLE OF CONTENTS

This environmental statement is presented in six parts as follows:

Part I:	Regional Analysis - A consideration of the Eastern Powder River Coal Basin, its environment, and projected development through 1990.	
	<u>Chapters I - IV.</u> Introduction, Potential Development, Development and Distribution Models, and Description of the Environment	Vol. I
	<u>Chapters V - XI.</u> Probable Impacts, Mitigating Measures, Unavoidable Adverse Effects, Alternatives, Relationships Between Short and Long Term Uses, Irreversible Commitments and Coordination	Vol. II
Part II:	Proposed railroad construction by Burlington Northern Inc. and the Chicago and North Western Transportation Company	Vol. III
Part III:	Proposed mining and reclamation by Atlantic Richfield Company	Vol. III
Part IV:	Proposed mining and reclamation by Carter Oil Company	Vol. IV
Part V:	Proposed mining and reclamation by Kerr-McGee Coal Corporation	Vol. IV
Part VI:	Proposed mining and reclamation by Wyodak Resource Development Corp.	Vol. IV
	Appendices	Vol. V
	Comments received at public hearings and by mail, and responses	Vol. VI

A detailed table of contents of this volume begins on the following page.

VOLUME II
REGIONAL ANALYSIS

Chapter

V.	PROBABLE CUMULATIVE REGIONAL IMPACTS.	I-459
	Climate	I-460b
	Air Quality	I-461
	Topography	I-469
	Soils	I-475
	Mineral Resources	I-479
	Water Resources	I-485
	Vegetation.	I-504
	Archeological and Paleontological Values.	I-508
	Historical Values	I-511
	Aesthetics.	I-514
	Wildlife and Fish	I-518
	Recreation.	I-537
	Agriculture	I-542
	Transportation Networks	I-549
	Land Tenure	I-553
	Socio-Economic Conditions	I-554
VI.	SIGNIFICANT MITIGATING MEASURES	I-612
	Air Quality	I-613
	Water Quality and Supply.	I-617
	Resource Disturbance	I-619
	Archeological Preservation.	I-637
	Historical Values	I-640
	Recreation	I-641
	Land Use Planning, Zoning and Controls	I-642
	Railroad Construction	I-645
VII.	PROBABLE ADVERSE ENVIRONMENTAL EFFECTS WHICH CANNOT BE AVOIDED	I-647
	Climate	I-647
	Air Quality	I-647a
	Topography	I-650
	Soils	I-651
	Mineral Resources	I-652
	Water Resources	I-653
	Vegetation	I-655
	Archeological and Paleontological Values.	I-656
	Historical Values	I-657
	Aesthetics	I-658
	Wildlife and Fish	I-659
	Recreation	I-661
	Agriculture	I-662
	Transportation Networks	I-663
	Socio-Economic Conditions	I-664

Chapter	
VIII.	ALTERNATIVES TO THE PROPOSED ACTION I-669
	No New Development I-669
	Restrict Development I-672
	Complete Exportation I-678
	Alternate Extraction Methods I-679
	Alternate Reclamation Objectives I-687
	Alternate Mode of Distributions I-695
	Alternate to Private Development I-702
	Alternate Utilization Methods I-703
	Alternate Sources of Energy I-707
	Production from the Outer Continental Shelf I-708
	Onshore Production I-743
	Oil Imports I-781
	Natural Gas Imports I-793
	Coal (Nationwide) I-799
	Nuclear Power I-806
	Geothermal Energy I-817
	Hydroelectric Power I-822
	Tar Sands I-826
	Energy Conservation I-829
	Other Energy Sources I-843
	Combinations of Alternatives I-854
IX.	THE RELATIONSHIP BETWEEN LOCAL SHORT-TERM USES OF MAN'S ENVIRONMENT AND THE MAINTENANCE AND ENHANCEMENT OF LONG-TERM PRODUCTIVITY I-859
	Agriculture I-861
	Soil I-862
	Wildlife I-863
	Recreation I-864
	Socio-Economic Conditions I-865
X.	IRREVERSIBLE AND IRRETRIEVABLE COMMITMENTS OF RESOURCES I-867
	Water Resources I-868
	Cultural Resources I-869
	Aesthetics I-870
	Lost Production I-871
	Loss of Power and Materials Used for Development I-872
	Loss of Life I-873
XI.	CONSULTATION AND COORDINATION I-875
