Final Environmental Impact Statement
for the North Rochelle Coal Lease Application
as applied for by Bluegrass Development Company
(Federal Coal Lease Application WYW177221)

Appendix D, Page D-4 should read as follows:

operations under this lease, and shall leave such discoveries intact until directed to proceed by FS and BLM.

FOREST SERVICE REGION 2 SENSITIVE SPECIES - The FS is responsible for assuring that the leased land is examined prior to undertaking any surface-disturbing activities to determine effects upon any plant or animal species listed as sensitive by the Regional Forester. The findings of this examination may result in some restrictions to the operator's plan or even disallow use and occupancy that would lead to the listing of a sensitive species under the Endangered Species Act of 1973.

ENDANGERED OR THREATENED SPECIES - The FS is responsible for assuring that the leased land is examined prior to undertaking any surface-disturbing activities to determined effects upon any plant or animal species listed or proposed for listing as endangered or threatened, or their habitats. The findings of this examination may result in some restrictions to the operator's plans or even disallow use and occupancy that would be in violation of the Endangered Species Act of 1973 by detrimentally affecting endangered or threatened species or their habitats.

The lessee/operator may, unless notified by the FS that the above examinations are not necessary, conduct the examinations on the leased lands at his discretion and cost. These examinations must be done by or under the supervision of a qualified resource specialist approved by the FS. Acceptable reports must be provided to the FS identifying the anticipated effects of a proposed action on endangered or threatened species or their habitats, and the anticipated effects and impacts to Forest Service Region 2 Sensitive species that may occur or have habitat in the area.
