

PROJECT: Windsor Energy Group LLC has filed an application for permit to drill and produce the Bison Ranch #21-1 well (see environmental assessment). The 8-point plan (drilling, geology, etc.), 13 point plan (surface use; well pad, road, etc.), and associated cultural and T&E consultation are considered part of the proposed action. The entire project is on non-federal surface about one and one half miles from Heart Mountain.

COMMENT PERIOD: The Cody Office of the Bureau of Land Management is making this analysis available for public comment because of its proximity to Heart Mountain. However, because the project is on private surface and the surface owners and the operator have reached agreement on how the project will be mitigated, the comment period will close August 3, 2006.

QUESTIONS OR COMMENTS: If you have any question or comments please contact Vic Seefeldt at 307/578-5918. You may also email comments to cody_wymail@blm.gov, or submit written comments to:
