ENERGY GATEWAY SOUTH TRANSMISSION PROJECT

SCOPING MEETING

Welcome...

**Your attendance and participation
are appreciated.**

BLM's Purpose and Need

BLM is:

Responding to a request to obtain a right-of-way for the use of public lands to construct and operate a transmission line.

Preparing an environmental impact statement (EIS) in conformance with the National Environmental Policy Act (NEPA).

BLM authorizes rights-of-way on public lands:

Federal Land Policy and Management Act of 1976 and Energy Act of 2005.

Proponent's Purpose and Need

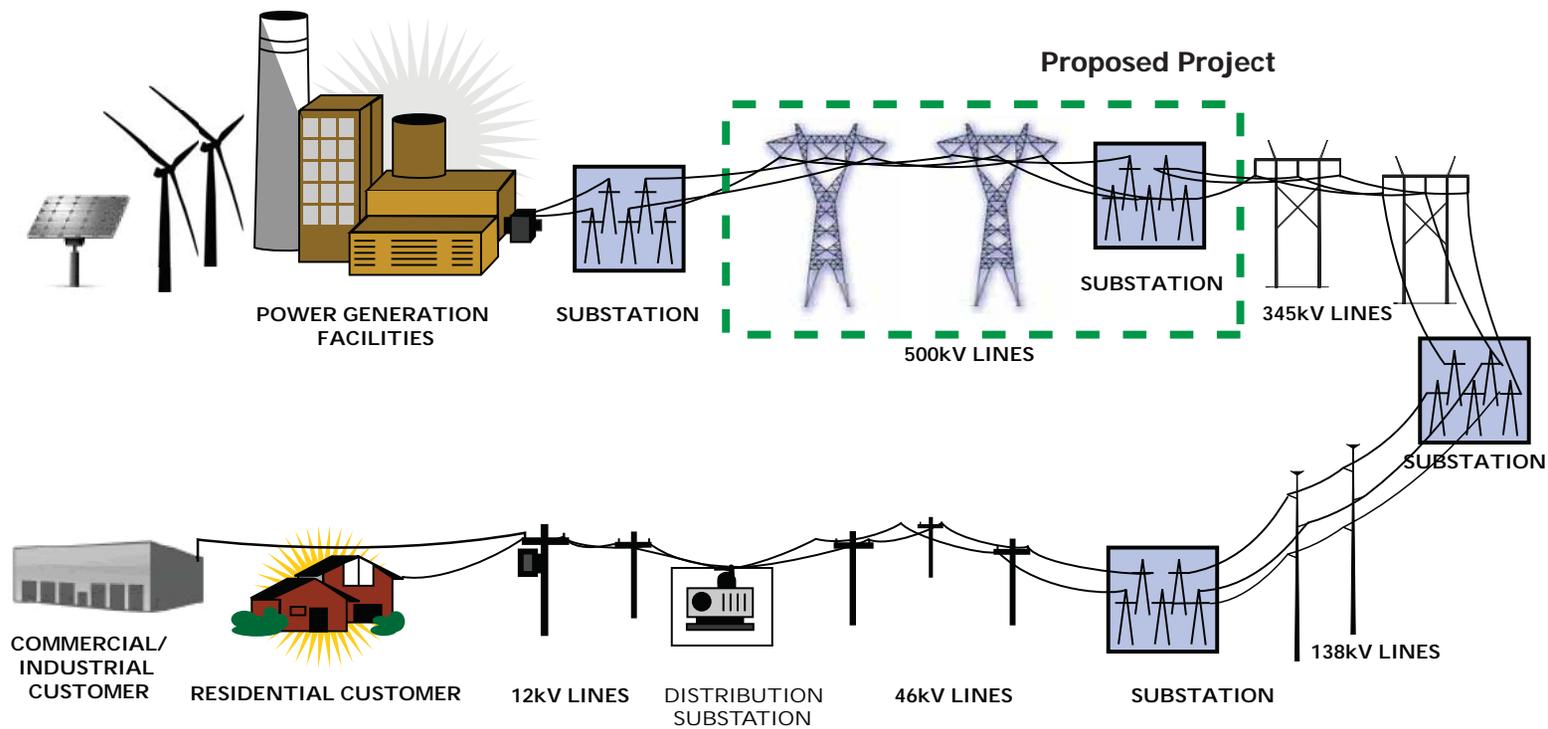

Local electric service: Add to the transmission infrastructure to provide customers the efficient and reliable service needed.

Reliability: Provide a more robust system to meet customer demand for electricity.

Access to energy resources: Provide additional electricity to customers generated from existing and future resources, including renewable and thermal resources.

Electricity: From generating sources to the customer

C-6

Project Description

Gateway South would connect Aeolus Substation to Clover Substation

Line length: approximately 400 miles

Structure types:

- 500 kilovolt (kV); single circuit; alternating current
- Self-supporting steel lattice (dulled, galvanized steel)

Structure height: 140 to 190 feet (height depends on terrain)

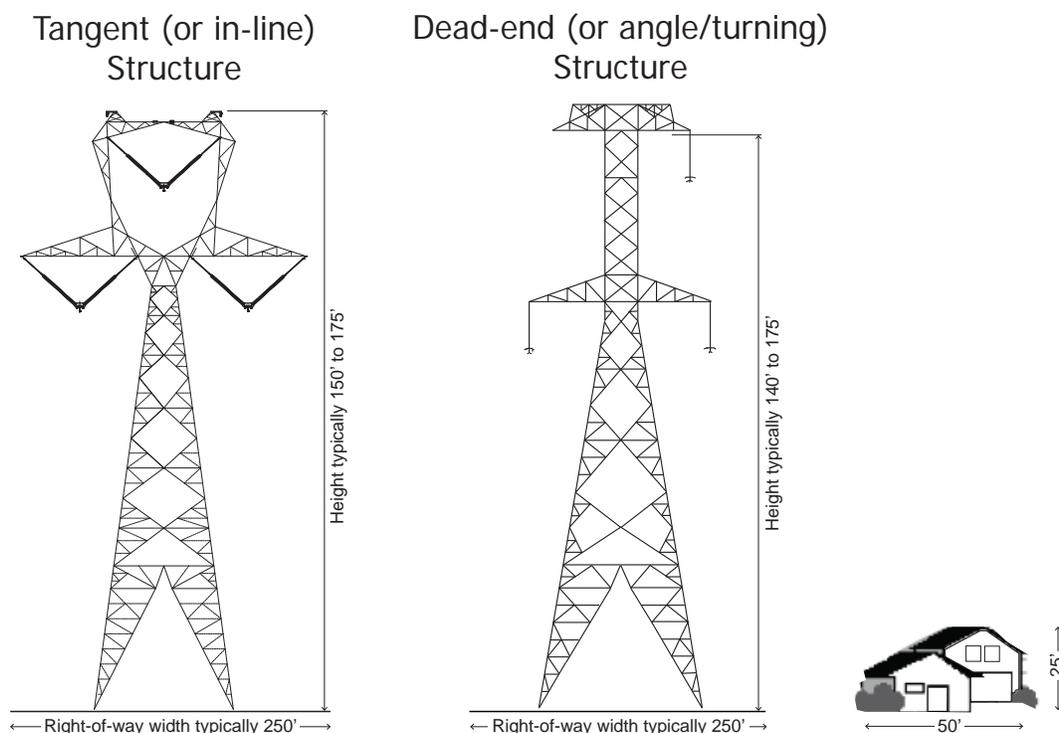

Span between structures: approximately 1,000 to 1,500 feet (4 to 5 structures per mile)

Right-of-way width: approximately 250 feet

Access road width: minimum of 14-foot-wide travel surface

Two series compensation stations: located at separate points between the Aeolus Substation and Clover Substation to improve transport capacity and efficiency of the transmission line

Typical Structure Types

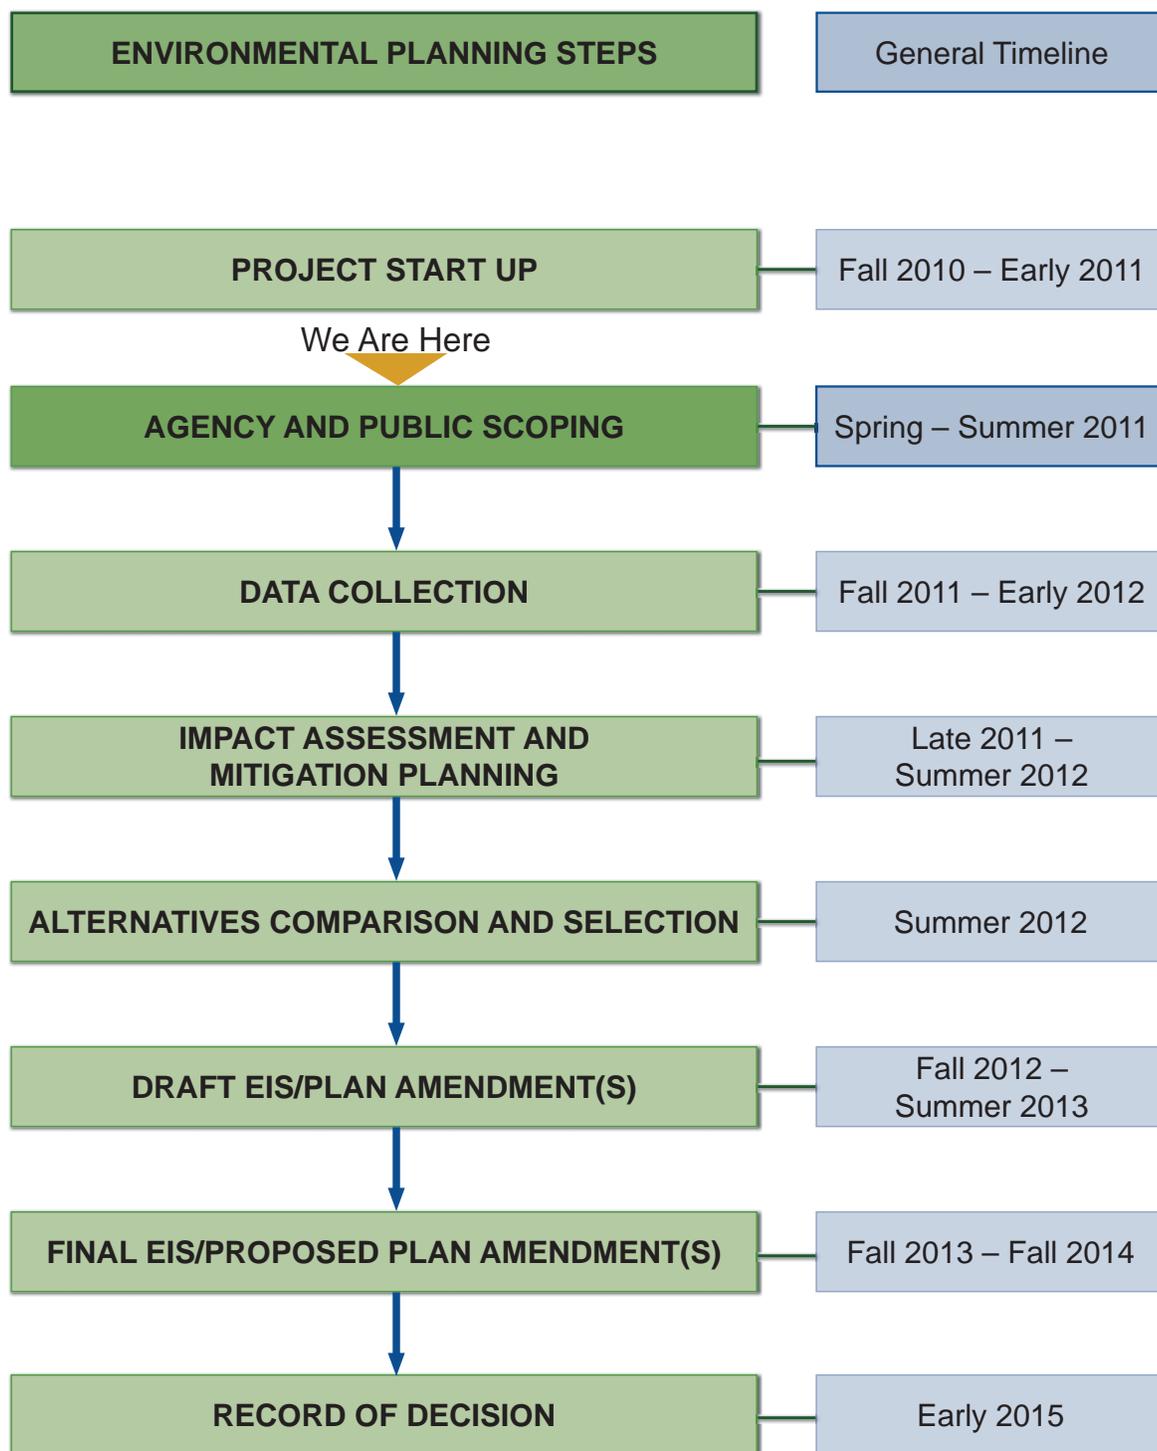

Environmental Impact Statement

In accordance with the National Environmental Policy Act (NEPA), the Bureau of Land Management is required to prepare an environmental impact statement to disclose the potential effects of the proposed project on the natural, human, and cultural environments. Studies will include:

- **Climate and air quality**
- **Earth and water resources**
 - Geology
 - Soils
 - Water (surface, ground)
- **Biological resources** (including Section 7)
 - Vegetation
 - Wildlife
 - Special-status species
 - Wild horses and burros
- **Noxious weeds and invasive species**
- **Wildland fire ecology and management**
- **Cultural resources** (including Section 106)
 - Archaeological
 - Historic
 - Native American concerns
- **Paleontological resources**
- **Visual resources**
- **Land use and recreation**
- **Wilderness characteristics**
- **Special designations**
- **Social and economic conditions**
- **Human health and safety**
- **Environmental justice**
- **Agency management-plan compliance**

EIS Timeline

Cooperating Agencies

Multiple agencies have been invited and will participate as cooperating agencies in preparation of the EIS. Cooperating agencies currently include:

Federal

- Forest Service, Intermountain Region
 - Uinta-Wasatch-Cache National Forest
 - Manti-La Sal National Forest
 - Ashley National Forest
- Bureau of Indian Affairs, Western Region
- Army Corps of Engineers, South Pacific Division
- Department of Defense
 - Army Environmental Center
 - Navy Region Southwest
- Fish and Wildlife Service, Mountain Prairie Region

States

- Wyoming
- Colorado
- Utah

Counties

- Carbon County, WY
- Sweetwater County, WY
- Mesa County, CO
- Moffat County, CO
- Rio Blanco County, CO
- Carbon County, UT
- Duchesne County, UT
- Emery County, UT
- Grand County, UT
- Juab County, UT
- Sanpete County, UT
- Uintah County, UT

Wyoming Conservation Districts

- Little Snake River Conservation District
- Saratoga-Encampment-Rawlins Conservation District
- Sweetwater County Conservation District
- Medicine Bow Conservation District

Make Your Comments Count

The BLM is actively seeking the public's involvement to help make a decision on the location of the transmission line.

You can help by providing thoughtful comments aimed at this objective. Well-considered comments can make a difference. The comments most useful in evaluating the alternatives and shaping the decision are those that:

- Offer specific reasons why a particular route segment would or would not work.
- Offer reasonable suggestions or alternatives that would help accomplish the objective.

Please Provide Your Comments

Comments to the BLM for the Environmental Impact Statement

The 90-day scoping period begins on April 1, 2011, and will end on the last day of the scoping period or 15 days after the last scoping meeting, whichever is later. Comments must be provided directly to the BLM to be part of the project record for the EIS.

- Email comments to GatewaySouth_WYMail@blm.gov
- Mail comments to:
 - BLM Wyoming State Office
 - ATTN: Tamara Gertsch
 - P.O. Box 21150
 - Cheyenne, WY 82003
- Visit the BLM website at http://www.blm.gov/wy/st/en/info/NEPA/documents/hdd/gateway_south.html

Price, UT

May 31, 2011
Carbon High School
750 East 400 North

Mount Pleasant, UT

June 1, 2011
North Sanpete High School
390 East 700 South

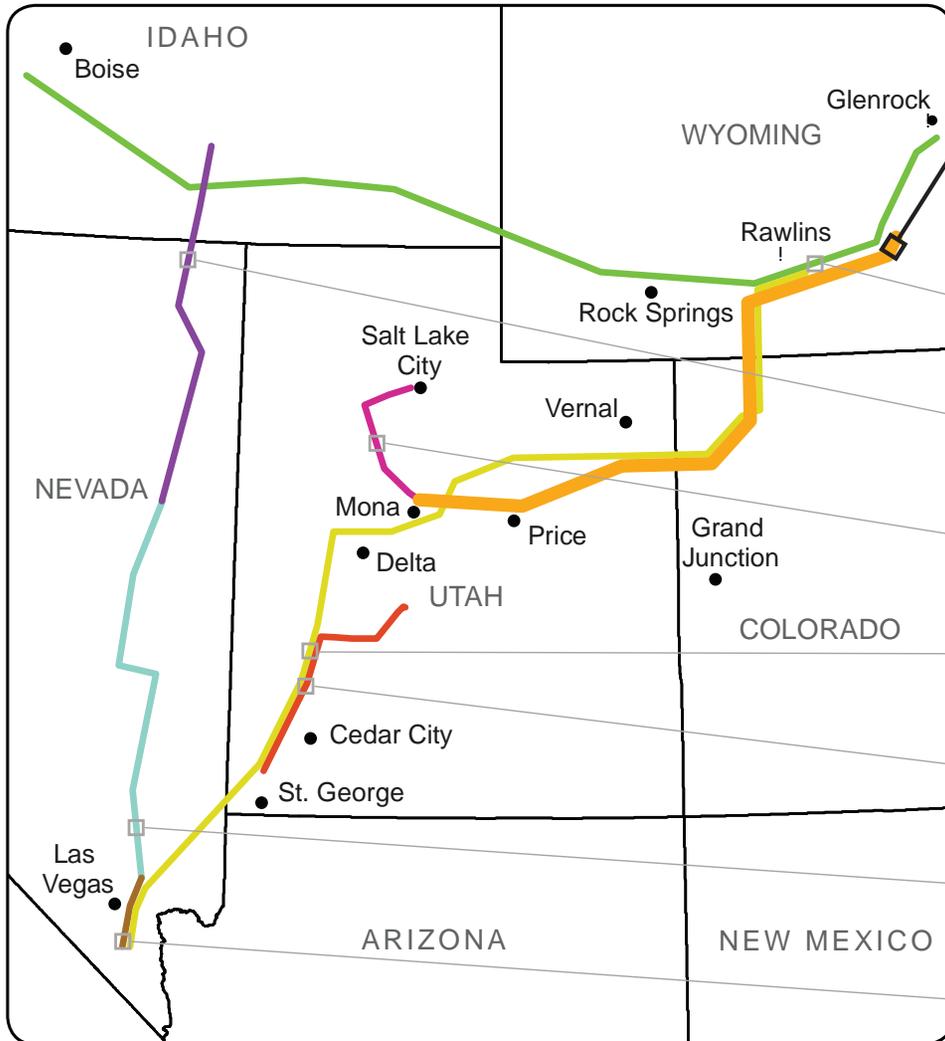

Green River, UT

June 2, 2011
Green River High School
745 West Pirate Avenue

All meetings will be from 4:30 - 7:30 p.m.

Proposed Intermountain Transmission Projects

Energy Gateway South Transmission Project

- Rocky Mountain Power
- 500 kilovolt (kV) alternating current transmission line
- 400+ miles long
- Environmental Impact Statement is being prepared
- Alternate routes affect 17 counties within Wyoming, Colorado, and Utah

Energy Gateway West Transmission Project

- Idaho Power and Rocky Mountain Power
- 500kV and 230kV alternating current transmission lines

Southwest Intertie Project (SWIP) North

- Great Basin Transmission, LLC
- 500kV alternating current transmission line

Mona to Oquirrh Transmission Project

- Rocky Mountain Power
- 500kV and 345kV alternating current transmission lines

TransWest Express Transmission Project

- TransWest Express, LLC
- 600kV direct current transmission line

Sigurd to Red Butte No. 2 Transmission Project

- Rocky Mountain Power
- 345kV alternating current transmission line

One Nevada Transmission Project/SWIP South

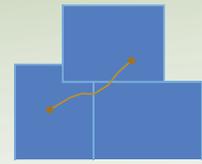

- Nevada Power/Great Basin Transmission, LLC
- 500kV/500kV alternating current transmission lines

Southern Nevada Intertie Project (SNIP)

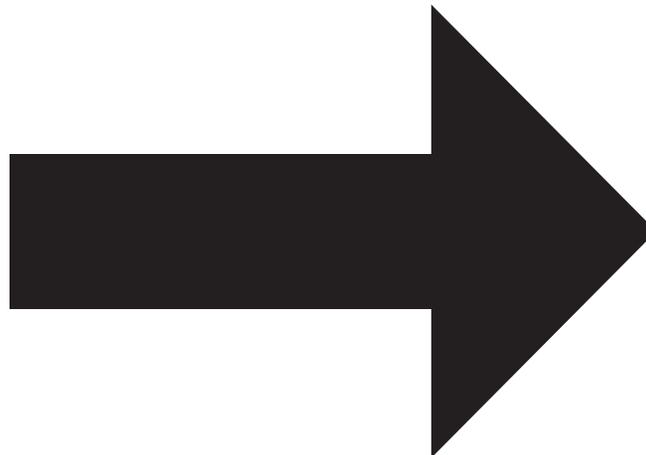

- Great Basin Transmission, LLC
- 500kV alternating current transmission line
