

5.0 CONSULTATION AND COORDINATION

In addition to this Environmental Impact Statement (EIS)¹, other factors and consultations are considered and play a major role in determining decisions on the proposed lease applications. They are included in the following list below.

Regional Coal Team Consultation

The four coal lease applications included in this EIS were reviewed and discussed at Powder River Regional Coal Team (PRRCT) public meetings held on April 19, 2006, in Casper, Wyoming (North Hilight Field, South Hilight Field, West Hilight Field, and West Jacobs Ranch tracts), and on January 18, 2007, in Casper, Wyoming (North and South Porcupine tracts). The North and South Hilight Field tracts were applied for in a single application, and the North and South Porcupine tracts were applied for in a single application. Each of the applicants presented information about their existing mines and pending lease application to the PRRCT at those meetings. Voting and nonvoting members of the PRRCT include the governors of Wyoming and Montana, the Northern Cheyenne Tribe, the Crow Tribal Council, the U.S. Department of Agriculture - Forest Service (USFS), Office of Surface Mining Reclamation and Enforcement (OSM), U.S. Fish and Wildlife Service (USFWS), National Park Service (NPS), and U.S. Geological Survey (USGS). The PRRCT determined that the lands in the four applications met the qualifications for processing as production maintenance tracts. The PRRCT recommended that the Bureau of Land Management (BLM) continue to process all four lease applications.

Governor's Consultation

The Bureau of Land Management (BLM) Wyoming State Director notified the Governor of Wyoming on April 27, 2006, that Ark Land Company (ALC) had filed a lease application with BLM for the North and South Hilight Field Lease by Application (LBA) Tracts. The BLM Wyoming State Director notified the Governor of Wyoming on February 2, 2006, that ALC had filed a lease application with BLM for the West Hilight Field LBA Tract. The BLM Wyoming State Director notified the Governor of Wyoming on September 18, 2006, that Jacobs Ranch Coal Company (JRCC) had filed a lease application with BLM for the West Jacobs Ranch LBA Tract. The BLM Wyoming State Director notified the Governor of Wyoming on March 14, 2007, that BTU Western Resources, Inc. (BTU) had filed a lease application with BLM for the North and South Porcupine LBA Tracts.

Public Notice

BLM published a Notice of Intent (NOI) to prepare an EIS and Notice of Public Meeting in the *Federal Register* on July 3, 2007, in the Gillette News-Record on

¹ Refer to page xxvi for a list of abbreviations and acronyms used in this document.

5.0 Consultation and Coordination

July 6, 2007, and in the Douglas Budget on July 11, 2007. The publications served as public notice that the Hilight Field, West Hilight Field, West Jacobs Ranch, and Porcupine coal lease applications had been received, announced the time and location of a public scoping meeting, and requested public comment on the four applications. Letters requesting public comment and announcing the time and location of the public scoping meeting were mailed to all parties on the distribution list on July 11, 2007.

At the public scoping meeting, which was held July 24, 2007 in Gillette, Wyoming, the applicants orally presented information about their mines and their need for the coal. The presentations were followed with a question and answer period, during which three oral comments were made. The scoping period extended from July 3 through September 3, 2007, during which time BLM received nine comment letters.

The Environmental Protection Agency (EPA) will publish a Notice of Availability in the *Federal Register* for the Draft Environmental Impact Statement (DEIS). The BLM will publish a Notice of Availability and Notice of Public Hearing in the *Federal Register* for the DEIS. There will be a 60-day comment period on the DEIS. A formal public hearing will be held during the 60-day comment period to solicit public comments on the DEIS, the fair market value, the maximum economic recovery, and the proposed competitive sale of coal from the six LBA tracts. Following the comment period on the DEIS, the Final Environmental Impact Statement (FEIS) will be prepared. Comments received from the public, state, and federal review agencies on the DEIS will be included in the FEIS.

Parties on the distribution list will be sent copies of the FEIS when it is completed, and the EPA will publish a Notice of Availability for the FEIS. After a 30-day availability period, BLM will make a separate decision to hold or not to hold a competitive lease sale for the federal coal in each of these six LBA tracts. A separate Record of Decision (ROD) will be prepared and signed for each of the tracts. Copies of each ROD will be mailed to parties on the mailing list and others who commented on this EIS during the National Environmental Policy Act (NEPA) process. After each ROD is signed, there will be a 30-day appeal period before the ROD is implemented. If lands administered by the USFS are included in the tracts that are offered for lease, the USFS will prepare and sign a separate consent decision for each tract. Applicable Forest Service regulations for appeal will be followed.

Department of Justice Consultation

After each competitive coal lease sale, but prior to issuance of a lease, BLM will solicit the opinion of the Department of Justice on whether the planned lease issuance creates a situation inconsistent with federal anti-trust laws. The Department of Justice is allowed 30 days to make this determination. If the

Department of Justice has not responded in writing within the 30 days, BLM can proceed with issuance of the lease.

Other Consultations

Other federal, state, local, and Native American governmental agencies that have been consulted in preparation of this EIS or will be consulted prior to making a decision to hold or not to hold a federal coal lease sale are listed in the following tables.

Contributors, Reviewers, and Preparers

This EIS was prepared by WWC Engineering, a third-party contractor, under the direction of the BLM. Representatives from cooperating agencies reviewed and contributed to the EIS. Tables 5-1 and 5-2 provide listings of the BLM, cooperating agency, and third-party consultant personnel who prepared and reviewed this EIS.

Distribution List

This EIS was distributed to Congressional offices, federal agencies, state governments, local governments, industry representatives, interest groups, and individuals for their review and comment (Table 5-3).
