

## **5.0 CONSULTATION AND COORDINATION**

In addition to this environmental impact statement (EIS)<sup>1</sup>, other factors and consultations are considered and play a major role in determining the decision on this proposed lease application. These include the following.

### **Regional Coal Team Consultation**

The four coal lease applications included in this EIS were reviewed and discussed at Powder River Regional Coal Team (PRRCT) public meetings held on April 24, 2005, in Gillette, Wyoming (Belle Ayr North Tract), on April 19, 2006 in Casper, Wyoming (Caballo West and West Coal Creek Tracts), and on January 18, 2007, in Gillette, Wyoming (Maysdorf II Tract). Each of the applicants presented information about their existing mine and pending lease application to the PRRCT at those meetings. Voting and nonvoting members of the PRRCT include the governors of Wyoming and Montana, the Northern Cheyenne Tribe, the Crow Tribal Council, the U.S. Department of Agriculture - Forest Service (USDA-FS), Office of Surface Mining Reclamation and Enforcement (OSM), U.S. Fish and Wildlife Service (USFWS), National Park Service (NPS), and U.S. Geological Survey (USGS). The PRRCT determined that the lands in the four applications met the qualifications for processing as production maintenance tracts. The PRRCT recommended that the Bureau of Land Management (BLM) continue to process all four lease applications.

### **Governor's Consultation**

The Bureau of Land Management (BLM) Wyoming State Director notified the Governor of Wyoming on March 14, 2007, that Foundation Coal West (FCW) had filed a lease application with BLM for the Belle Ayr North Lease by Application (LBA) Tract. The BLM Wyoming State Director notified the Governor of Wyoming on April 27, 2006, that Caballo Coal Company (CCC) had filed a lease application with BLM for the Caballo West LBA tract. The Governor was notified on September 18, 2006 that Ark Land Company (ALC) had filed a lease application for the West Coal Creek LBA tract and that Cordero Mining Company (CMC) had filed a lease application for the Maysdorf II LBA tract.

### **Public Notice**

A notice announcing the receipt of the Belle Ayr North coal lease application was published in the *Federal Register* on March 8, 2005; a BLM news release announcing the receipt of the Caballo West and West Coal Creek coal lease applications was issued on March 27, 2006; and a notice announcing the receipt of the Maysdorf II coal lease application was published in the *Federal Register* on December 12, 2006. These notices also announced the date, time, and place of the PRRCT meetings to be held to discuss these lease applications. BLM

---

<sup>1</sup> Refer to page xxii for a list of abbreviations and acronyms used in this document.  
*Final EIS, South Gillette Area Coal Lease Applications*

## 5.0 Consultation and Coordination

---

published a Notice of Intent to Prepare an Environmental Impact Statement and Notice of Scoping in the *Federal Register* on March 29, 2007 and in the Gillette News-Record on April 4, 2007. The publications served as public notice that the four coal lease applications had been received, announced the time and location of a public scoping meeting, and requested public comment on all four of the applications.

Parties on the distribution list were sent letters announcing the time and location of a public scoping meeting in April 11, 2007 in Gillette, Wyoming. At the public meeting, the applicants orally presented information about their mines and their need for the coal. The presentations were followed by a question and answer period, during which no oral comments were made. The scoping period extended from March 29 through June 10, 2007, during which time BLM received written, e-mailed, and telephoned comments from six entities.

The EPA published a notice announcing the availability of the draft EIS in the *Federal Register* on October 24, 2008. BLM published a Notice of Availability/Notice of Public Hearing in the *Federal Register* on October 17, 2008. The 60-day comment period on the draft EIS ended on December 24, 2008. A public hearing was held on November 19, 2008 at 7:00 pm at the Campbell County George Amos Memorial Building. One individual presented statements on the draft EIS during the hearing and written comments were received from 18 individuals, agencies, or organizations during the comment period. A summary of the statements that were presented at the formal public hearing and the written comments, with agency responses, are included as appendix I of this FEIS.

Parties on the distribution list have been sent copies of the completed FEIS, and the EPA and BLM have published Notices of Availability for the FEIS. After a 30-day availability period, BLM will make separate decisions to hold or not to hold a competitive lease sale for the federal coal in each of these LBA tracts and a Record of Decision (ROD) for each of the tracts will be signed. Copies of each ROD will be mailed to parties on the mailing list and others who commented on this LBA during the National Environmental Policy Act (NEPA) process. There will be a 30-day appeal period after each ROD is signed before the ROD is implemented.

### **Department of Justice Consultation**

After each competitive coal lease sale, but prior to issuance of a lease, BLM will solicit the opinion of the Department of Justice on whether the planned lease issuance creates a situation inconsistent with federal anti-trust laws. The Department of Justice is allowed 30 days to make this determination. If the Department of Justice has not responded in writing within the 30 days, BLM can proceed with issuance of the lease.

**Other Consultations**

Other federal, state, local, and Native American governmental agencies that have been consulted in preparation of this EIS or will be consulted prior to making a decision to hold or not to hold a federal coal lease sale are listed in the following tables.

**Contributors, Reviewers, and Preparers**

This EIS was prepared by WWC Engineering, a third-party contractor, under the direction of the BLM. Representatives from cooperating agencies reviewed and contributed to the EIS. Tables 5-1 and 5-2 provide listings of the BLM, cooperating agency, and third-party consultant personnel who prepared and reviewed this EIS.

**Distribution List**

This EIS was distributed to Congressional offices, federal agencies, state governments, local governments, industry representatives, interest groups, and individuals for their review and comment (Table 5-3).
