

United States Department of the Interior
BUREAU OF LAND MANAGEMENT
Wind River/Bighorn Basin District
Lander Field Office 1335 Main Street
Lander, Wyoming 82520

In Response Refer To:
1792
4120.1
No. 32001

February 22, 2011

Dear Reader:

The revised Green Mountain Common Allotment (GMCA) environmental assessment (EA) is now available for your review. The document analyzes three alternatives for managing grazing in the GMCA in the Lander Field Office, Wind River/Bighorn Basin District.

The decisions made as a result of this analysis will guide grazing management on public land in the GMCA for many years to come. The EA is available for review at:

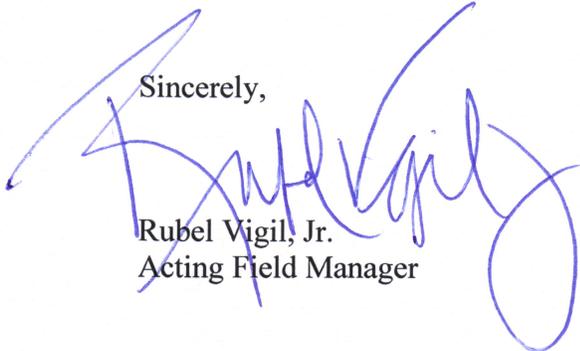

http://www.blm.gov/wy/st/en/info/NEPA/documents/lfo/greenmtn_common.html

Copies are also available at the Lander Field Office. I encourage you to review the EA and submit your written comments by March 23, 2011, to the Lander Field Office, 1335 Main Street, Lander, WY 82520. You may also email your comments to lander_wymail@blm.gov.

Following the comment period, we will consider the comments received and incorporate needed changes to the document and issue a Decision Record outlining our decision and rationale. The GMCA Interdisciplinary Team and I want to thank you for your involvement in the lengthy process that has led to the completion of this EA. Following our Final Decision, we would appreciate your continuing participation as we implement the allotment management plan.

If you have any questions regarding the EA, please contact me, or Rangeland Management Specialist John Likins, at (307) 332-8400.

Sincerely,

Rubel Vigil, Jr.
Acting Field Manager
