

APPENDIX B
for the
May 2012 Lease Parcels
Parcel Descriptions
With
Stipulations

RAWLINS FO (C-1)
MAY 2012
FINAL LEASE LIST

WY-1205-001 320.000 Acres
T.0170N, R.0760W, 06th PM, WY
Sec. 028 S2;

Albany County

Rawlins FO

Formerly Lease No.

Stipulations:

Lease Notice No. 1

Lease Notice No. 2

Lease Notice No. 3

Special Lease Stipulation

NSO (1) as mapped on the Rawlins Field Office GIS database; (2) protecting historic values within 1/4 mile of contributing segments of the Overland Trail.

TLS (1) Nov 15 to Apr 30; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting big game on crucial winter range.

TLS (1) Feb 1 to July 31; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting raptors.

TLS (1) Mar 1 to Jul 15; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting Greater sage-grouse.

TLS (1) April 10 to July 10 (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting Mountain plover.

CSU (1) Surface occupancy or use will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting the habitats of identified amphibian/reptile species.

CSU (1) Surface occupancy or use may be restricted or prohibited within the setting contributing to the National Register of Historic Places eligibility unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting historic and visual values of the Overland Trail.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or

consultation; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting *Buteo regalis* (Ferruginous hawk); *Centrocercus urophasianus* (Greater sage-grouse); *Charadrius montanus* (Mountain plover); *Thomomys clusius* (Wyoming pocket gopher); species affected by water depletions from the Platte River system.

Stipulations:

Lease Notice No. 1

Lease Notice No. 2

Lease Notice No. 3

Special Lease Stipulation

TLS (1) Feb 1 to Aug 15; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting Bald eagle roosting sites.

TLS (1) Mar 1 to Jul 15; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting Greater sage-grouse.

TLS (1) April 10 to July 10 (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting Mountain plover.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting *Haliaeetus leucocephalus* (bald eagle); *Centrocercus urophasianus* (Greater sage-grouse); *Charadrius montanus* (Mountain plover); *Cynomys leucurus* (White-tailed prairie dog); *Rorippa calycina* (persistent sepal yellowcress); *Thomomys clusius* (Wyoming pocket gopher); Species affected by water depletions from the Platte River system.

CSU (1) Surface occupancy or use may be restricted or prohibited within 1/4 mile or the visual horizon, whichever is closer, of historic properties where the setting contributes to National Register of Historic Places (NRHP) eligibility unless the operator and surface managing agency

arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting historic and visual values of the Lincoln Highway/UPRR Grade historic property.

CSU (1) Surface occupancy or use may be restricted or prohibited within the setting contributing to the National Register of Historic Places eligibility unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting historic and visual values of the Lincoln Highway/UPRR Grade historic property.

BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting *Haliaeetus leucocephalus* (bald eagle); *Centrocercus urophasianus* (Greater sage-grouse); *Thomomys clusius* (Wyoming pocket gopher); *Oncorhynchus clarki pleuriticus* (Colorado River cutthroat trout); Species affected by water depletions from the Colorado River system.

TLS (1) Mar 1 to Jul 15; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting Greater sage-grouse.

TLS (1) Feb 1 to July 31; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting raptors.

TLS (1) April 10 to July 10 (2) as mapped on the Rawlins Field Office GIS database; (3) protecting nesting Mountain plover.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or

consultation; (2) as mapped on the Rawlins Field Office GIS database; (3) protecting *Buteo regalis* (Ferruginous hawk); *Centrocercus urophasianus* (Greater sage-grouse); *Charadrius montanus* (Mountain plover); *Cynomys leucurus* (White-tailed prairie dog); *Thomomys clusius* (Wyoming pocket gopher).

***Defer entire parcel pending completion of the sage grouse RMP amendment. Recommend entire parcel be deferred based on criteria in IM WY-2010-013, step 3.**

Lease Notice No. 3

Special Lease Stipulation

TLS (1) Mar 15 to Jul 15; (2) as mapped on the Rock Springs Field
Office GIS database; (3) protecting nesting Greater sage-grouse.

CSU (1) Surface occupancy or use within the Red Desert Watershed Area
will be restricted or prohibited unless the operator and surface managing
agency arrive at an acceptable plan for mitigation of anticipated
impacts; (2) as mapped on the Rock Springs Field Office GIS database;
(3) protecting steep slopes, visual resources, recreational, watershed,
cultural, and wildlife values.

CSU (1) The lease area may now or hereafter contain plants, animals, or
their habitats determined to be threatened, endangered, or other special
status species. BLM may recommend modifications to exploration and
development proposals to further its conservation and management
objective to avoid BLM-approved activity that will contribute to a need
to list such a species or their habitat. BLM may require modifications
to or disapprove proposed activity that is likely to result in jeopardy
to the continued existence of a proposed or listed threatened or
endangered species or result in the destruction or adverse modification
of a designated or proposed critical habitat. BLM will not approve any
ground-disturbing activity that may affect any such species or critical
habitat until it completes its obligations under applicable requirements
of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq.,
including completion of any required procedure for conference or
consultation; (2) as mapped on the Rock Springs Field Office GIS
database; (3) protecting *Brachylagus idahoensis* (Pygmy rabbit); *Cynomys
leucurus* (White-tailed prairie dog); *Amphispiza billineata* (Sage
sparrow); *Oreoscoptes montanus* (Sage thrasher); *Spizella breweri*
(Brewer's sparrow); *Centrocercus urophasianus* (Greater sage-grouse);
protecting *Charadrius montanus* (Mountain plover),
Lanius ludovicianus (Loggerhead shrike).

Lease Notice No. 3

Special Lease Stipulation

TLS (1) Mar 15 to Jul 15; (2) entire lease; (3) protecting nesting Greater sage-grouse.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management

objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) as mapped on the Rock Springs Field Office GIS database; (3) protecting Species affected by water depletions from the Colorado River system; *Brachylagus idahoensis* (Pygmy rabbit); *Amphispiza billineata* (Sage sparrow); *Oreoscoptes montanus* (Sage thrasher); *Centrocercus urophasianus* (Greater sage-grouse); *Charadrius montanus* (Mountain plover); *Spizella breweri* (Brewer's sparrow); *Plegadis chihi* (White-faced ibis) ; *Lanius ludovicianus* (Loggerhead shrike).

CSU (1) Surface occupancy or use within 1/4 mile of a Greater sage-grouse strutting/dancing ground will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) entire lease; (3) protecting Greater sage-grouse breeding habitat.

***Defer entire parcel pending completion of the Greater Sage-grouse RMP Amendment as a result of the Greater Sage-grouse screening process.**

TLS (1) Nov 15 to Mar 14; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting Greater sage-grouse winter habitat.

CSU (1) Surface occupancy or use will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting Class I and II Visual Resource Management Areas.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting *Centrocercus urophasianus* (Greater sage-grouse); *Thomomys idahoensis* (Idaho pocket gopher); Species affected by water depletions from the Colorado River system.

Special Lease Stipulation

TLS (1) Mar 15 to Jul 15; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting nesting Greater sage-grouse.

TLS (1) Feb 1 to Jul 31; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting nesting Raptors.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management

objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) as mapped on the Kemmerer Field Office GIS database; (3) protecting *Centrocercus urophasianus* (Greater sage-grouse); *Thomomys idahoensis* (Idaho pocket gopher); *Brachylagus idahoensis* (pygmy rabbit); *Phlox pungens* (Beaver Rim phlox); *Lesquerella prostrata* (prostrate bladderpod); *Physaria condensata* (tufted twinpod); Species affected by water depletions from the Colorado River system.

CSU (1) Surface use or occupancy shall not be allowed by oil and gas lessee(s), operating rights holder(s), and/or oil and gas operator(s) on this Federal oil and gas lease to conduct any oil and gas operation, including drilling for, removing, or disposing of oil and/or gas contained in the Federal coal lease WYW 0075206 unless a plan for mitigation of anticipated impacts is developed between the oil and gas and the coal lessees, and the plan is approved by the Authorized Officer; (2) as mapped on the Kemmerer Field Office GIS database; (3) for the purpose of protecting the first in time valid existing rights of the coal lessee, the Authorized Officer reserves the right to alter or modify any oil and gas operations on the lands described in this lease ensuring: a.) the orderly development of the coal resource by surface and/or underground mining methods; b.) coal mine worker safety; and/or c.) coal production rates or recovery of the coal resource. The oil and gas lessee(s), operating rights holder(s), and/or oil and gas operator(s) of this Federal oil and gas lease shall not hold the United States as lessor, coal lessee(s), sub-lessee(s), and/or coal operator(s) liable for any damage or loss of the oil and gas resource, including the venting of coal bed methane gas, caused by coal exploration or mining operations conducted on Federal coal lease WYW 0075206.
