

Appendix A

for the

August 2013 Lease Parcel EA DOI-BLM-WY-R010-2013-0014-EA

Parcel Descriptions with Stipulations

The nominated parcels are listed below with the stipulations that would be applied under Alternative 2. These stipulations are consistent with approved Resource Management Plans for the Cody, Lander, and Worland (Washakie and Grass Creek) Field Offices. Included are the parcels that would be recommended for deferral under Alternative 3 for reasons as identified in the EA and summarized in Appendix E – Offer and Deferral Summary.

In accordance with Washington Office Instruction Memorandum Number 2010-117, the following standard ESA and NHPA lease stipulations, at a minimum, will be attached to any lease that is offered. To help consolidate Appendix A and for ease of review, the stipulations are provided here and will be incorporated into the individual parcel stipulations prior to sale.

Standard Endangered Species Act and National Historic Preservation Act Lease Stipulations

Endangered Species Act Section 7 Consultation Stipulation

The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. The BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such species or their habitat. The BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. The BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. §1531 et seq., including completion of any required procedure for conference or consultation.

Cultural Resources and Tribal Consultation Stipulation

This lease may be found to contain historic properties and/or resources protected under the National Historic Preservation Act (NHPA), American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, Executive Order 13007, or other statutes and executive orders. The BLM will not approve any ground-disturbing activities that may affect any such properties or resources until it completes its obligations (e.g., State Historic Preservation Officer (SHPO) and tribal consultation) under applicable requirements of the NHPA and other authorities. The BLM may require modification to exploration or development proposals to protect such properties, or disapprove any activity that is likely to result in adverse effects that cannot be successfully avoided, minimized, or mitigated.
