### **Offer and Deferral Summary Table**

As part of the August 2014 lease sale preparation process, the BLM WSO conducted screening for Greater Sage-Grouse per BLM WY guidance (IM WY-2012-019), consistent with national policy. The parcels meeting criteria for core habitat and manageability using the Fluid Mineral Leasing Screen were identified for deferral on this basis. As a result, of the 35 parcels reviewed, 3 partial parcels and 1 full parcel totaling 2,477.000 acres were screened out from lease offering at this time and not further analyzed in detail.
