Offer and Deferral Summary Table

As part of the February 2015 lease sale preparation process, the BLM WSO conducted screening for Greater Sage-Grouse per BLM WY guidance (IM WY-2012-019), consistent with national policy. The parcels meeting criteria for core habitat and manageability using the Fluid Mineral Leasing Screen were identified for deferral on this basis. As a result, 26 parcels (2 partial parcels and 24 full parcels) totaling 44,407.170 acres, were screened out from lease offering at this time and not further analyzed in detail.
