Dear Mr. Anderson:

Please consider the following comments on the Draft Supplemental Environmental Impact Statement (DSEIS) for development in the Pinedale Anticline.

SE-1 LA-3-1
Apparently speaking of the Sublette Rural Health Care District, page 3-22 of the document states that, "There has not been an increase in trauma incidents in the period 2000-2005 and they are equipped to meet the current demand." This statement is incorrect. Please revise this to reflect the attached statistics.

SE-2 LA-3-2
Page 4-17 of the DSEIS (where impacts of the various alternatives should be described) says only that, "Both the Pinedale Volunteer Fire Department and the Sublette Rural Health Care District have added equipment and personnel during the period 1999 to 2006 and are adequately meeting demands (Mitchell, 2006 and McGinnis, 2006)." It does not describe any impacts. We would be interested to know what impacts your project as related to medical service demands on us.

SE-3 LA-3-3
The Comparison of Impacts for All Alternatives on DSEIS page F-1 repeats only that Local Demands "are being met", and goes on to indicate that this will be the same impact for every development scenario. The projected population in the year 2011 for Lincoln, Sweetwater and Sublette Counties is also the same regardless of the development scenario. It is difficult to believe that all alternatives will have the same outcome, but in any case population predictions by County or Town (not the combined population of 3 counties) would be the only meaningful planning tool for us.

We look forward to seeing more accurate, specific, and useful statistics in your next draft.

Re: Sublette County Trauma Stats

The following report lists trauma calls reported in Sublette County. The selection criterion is 911 responses with trauma for patients that were transported. Interfacility transfers, cancelled calls and patient refusals are not included in the count.

Reporting Year	Count of Trauma Related Transports – Sublette County
2000	101
2001	121
2002	Not Available
2003	134
2004	154
2005	247
2006	308
