

**REVISED SCOPING NOTICE**  
**BLM PINEDALE FIELD OFFICE**  
**Revised Project Area for Mesa Sagebrush Fertilization Project**

On June 15, 2011, the Bureau of Land Management Pinedale Field Office (PFO), in conjunction with the Pinedale Anticline Project Office (PAPO), issued a Scoping Notice for the Mesa Sagebrush Fertilization Project. **The proposed project boundary has been revised to avoid the Core Development Area of the Pinedale Anticline Project Area (PAPA).**

The revised project boundary encompasses 3090 acres located within the Flanks and Potential Development Area of the PAPA. The area is located entirely on public land approximately 10 miles southwest of Pinedale, Wyoming in Sublette County within the western portion of the Mesa on the northern part of the Anticline and within the Mesa Common Allotment. The project area is located within the following area: T32N R110W Sections 1, 2, 11, 12, 13, 14, 24, 25 and 36; and T32N R109W Sections 30 and 31. Terrain is relatively flat, with elevations ranging from 7,400 to 7,500 feet.

All other details of the proposed project that were included in the original scoping notice have not been revised.

Mail or deliver written comments by July 21, 2011 to Theresa Gulbrandson, wildlife biologist, PAPO, 1625 West Pine, P.O. Box 768, Pinedale, WY 82941; or fax to 307-367-5329; or email to [JIO\\_WYMAIL@blm.gov](mailto:JIO_WYMAIL@blm.gov) with "Mesa Fertilization" in the subject line.

For more information, please contact Dan Stroud, habitat biologist PAPO, at 307-367-5387 or [dan.stroud@wyo.gov](mailto:dan.stroud@wyo.gov).
