BLM Rawlins Field Office
Lost Creek Final EIS Comment
PO BOX 2407
Rawlins WY 82301

Dear BLM,

The Board of Directors of the Rock Springs Chamber of Commerce appreciates this opportunity to comment on this Final EIS for the Lost Creek Uranium Project. We compliment the BLM on relatively quick completion of the EIS. We agree with the decisions made thus far and support the selection of Drying Yellow Cake Onsite Alternative proposed by the BLM.

The Lost Creek Uranium Project will expand the economic base of Sweetwater County and the surrounding communities. It will supply needed energy to our country and the world. It will provide additional employment opportunities for our workforce and add to our tax-base. The approval of the use of this low impact mining technique is to be applauded.

We look forward to commenting on the Final Decision Document.

Sincerely,

Debbie Orr
President, Board of Directors

Dave Hanks
CEO, Rock Springs Chamber
