AUG 08 2014

Dear BLM Interested Public and Permittees:

During the 2013 field season, the Worland Field Office reviewed Standards for Healthy Rangelands and Guidelines for Livestock Grazing Management on the following Allotments:

Wild Horse Flats	#01504
Slickwater	#00162
Badlands	#00016
Healy	#00185
Mileski Badlands	#00014
Antelope Draw	#00074
Honey Combs	#00107
Worland Cattle Group	#00007
East Fork	#00042
Nowater	#00105

In the late summer/early fall of 2013 the BLM Worland Field Office offered tours of these allotments to review the 17 indicators of rangeland health but, due to the shutdown of the government for much of October, these tours were cancelled. As such, the draft determinations are being made available to you for review. These documents will be posted at the United States Dept. of the Interior, Bureau of Land Management-Wyoming website: <http://www.blm.gov/wy/st/en/info/NEPA/documents/wfo/rhealth>.

These documents will be available for review and we will accept comments on these documents until close of business August 29, 2014. If you have any information/data specific to an allotment that you feel would aid in this rangeland health determination, you may submit it to us for our consideration in hard copy format to 101 South 23rd St. Worland, WY 82401.

If you have any questions, please call me or John Elliott at (307) 347-5100.

Sincerely,

Rebecca A. Good
Field Manager
