

June 19, 1998

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Wyoming State Office
5353 Yellowstone Road, Box 1828
Cheyenne, WY 82003

NOTICE OF COMPETITIVE LEASE SALE

Notice is hereby given that on **Tuesday, August 4, 1998**, the Bureau of Land Management, Wyoming State Office, will offer for competitive sale, pursuant to 43 CFR Part 3120 and procedures herein, certain Federal lands for oil and gas leasing.

LOCATION: The sale will be held in the Convention Center, Holiday Inn, 204 West Fox Farm Road (I-80 and US-85), Cheyenne, Wyoming. You must be present to bid. A block of rooms at a special rate of \$46.00 per room has been reserved for sale participants at the Holiday Inn. You may call the Holiday Inn at (307) 638-4466, extension 152, for further information or reservations. When making room reservations, please identify yourself as attending the **BLM LAND SALE**.

TIME: The competitive oral auction will commence at **8:00** a.m. on **Tuesday, August 4, 1998**, and shall run for one day until all parcels are offered. The Receiving Room will be open to the public at 7:00 a.m. to allow each interested bidder time to register and obtain a bidder number.

REGISTRATION AND BIDDER NUMBERS: Bidders must have a number in order to bid. Registration of bidders in order to obtain a bidder number will be required. Registration of bidders will be conducted in the Receiving Room.

LANDS OFFERED: The lands to be offered are described herein. Parcels will be offered for oral bid in the order shown in this Notice of Competitive Lease Sale. Parcels are listed in Range-Township order by state and land type.

TERMS OF LEASE: Leases awarded as a result of this oral auction will be for a primary term of 10 years, and for so long thereafter as there is production in paying quantities. The royalty will be a flat rate of 12-1/2 percent of the value or the amount of production removed or sold from the lease. Other terms of the lease are specified on the lease form.

OTHER CONDITIONS: Surface use stipulations are identified in this Notice of Competitive Lease Sale. Stipulations shall become part of the lease and shall supersede any inconsistent provisions of the lease form. General surface use requirements are contained in law and regulation. A map with Bureau of Land Management (BLM) district and resource area office boundaries and a sheet with addresses and telephone numbers are included in this Notice; please contact the appropriate office for questions on the **BLM** stipulations. Questions related to the Thunder Basin parcels should be addressed to the U.S.D.A. Forest Service, Douglas Ranger District, 2250 East Richards, Douglas, WY 82633 (telephone number 307-358-4690). Questions related to the Shoshone National Forest parcels should be addressed to the U.S.D.A. Forest Service, P.O. Box 25127, Lakewood, CO 80225-0127 (telephone number 303-275-5098). **See the back of this Notice for the text of the Forest Service stipulations.**

MINIMUM BID: The minimum acceptable bonus bid will be the lump sum equivalent of \$2 per acre or fraction thereof. All bids received shall be deemed submitted for an entire parcel.

METHOD OF BIDDING: All bids shall be made orally and shall be based on a per-acre amount to cover the entire acreage in a parcel.

FRACTIONAL INTERESTS: If the United States holds less than 100 percent of the oil and gas rights, as specified in this Notice, any lease issued will be only for the percentage or fractions indicated; however, bonus bids and rentals for such parcels shall be based on the gross acreage in the parcel, not the net U.S. interest. Chargeable acreage and production royalty are, in contrast, calculated on the net U.S. interest.

RIGHT TO WITHDRAW PARCELS FROM SALE: The Bureau of Land Management reserves the right to withdraw any or all of the parcels at any time prior to sale.

DETERMINATION OF WINNING BID: A winning bid will be the highest oral bid equal to or exceeding the minimum bid of \$2 per acre. The decision of the auctioneer shall be final.

PAYMENT OF MINIMUM BONUS BID, RENTAL, AND ADMINISTRATIVE FEE: A bid shall not be withdrawn and shall constitute a legally binding commitment to execute the lease bid form and accept a lease, including the obligation to pay the bonus bid, first year's rental, and administrative fee. There have been cases in past oral auctions where the minimum deposit due from the high bidder on the day of the auction was not paid, or was paid by a check drawn on an account with insufficient funds. The Bureau of Land Management will be closely monitoring situations of this nature to determine whether further measures should be initiated to protect the integrity of the system. **Please be advised that Department of the Treasury rules require that checks**

received on the day of the sale be deposited immediately following the sale.

Winning bidders shall be required to make a minimum payment at the auction, on the day of the oral auction, of: (1) the minimum bonus bid of \$2 per acre or fraction thereof; (2) the total amount of the first year's annual rental at a rate of \$1.50 per acre or fraction thereof; and (3) an administrative fee of \$75 per parcel. Failure to pay this minimum deposit may result in assessment of civil penalties pursuant to the Federal Oil and Gas Royalty Management Act. The total payment of all monies due may be made at this time.

FORM OF PAYMENT: Payment shall be made by personal check, certified check, or money order (such forms of payment must be made payable to the DEPARTMENT OF THE INTERIOR - BLM), or by credit card (VISA or MasterCard accepted only). **If payment will be made by credit card, bidders should contact their bank prior to the sale to inform them that a substantial charge may be made against that account. This will alleviate any authorization problems on the day of the sale.** Payment by cash shall NOT be allowed.

REMAINING PAYMENTS: Any remaining payment beyond the minimum required on the day of sale shall be tendered to the Wyoming State Office, 5353 Yellowstone Road, Box 1828, Cheyenne, WY 82003, by 4:00 p.m. on:

Tuesday, August 18, 1998

A failure to remit the remaining monies due by the time specified shall result in forfeiture of the right to issuance of the lease and of all previously tendered fees for the lease. **Any entity who forfeits the right of issuance of a lease (failure to submit the remaining monies due) on three occasions is prohibited from bidding at any future sale in this State.**

BID FORM REQUIRED--AVAILABILITY: Pursuant to 43 CFR 3120.5-3, successful high bidders will be required to submit **with** the required payments for each parcel, on the day of the oral auction, a properly signed competitive lease bid form (Form 3000-2, June 1988 or later edition). Form 3000-2 is a legally binding offer to accept a lease pursuant to the terms and conditions specified herein and on the standard lease form (Form 3100-11, June 1988 or later edition) and may be obtained and executed by the prospective lessee prior to the oral auction. If the lease bid form is completed before the oral auction, it cannot be modified; however, portions of the form may be left blank to be completed by the bidder at the auction. If the form is not executed before the auction, the prospective lessee must complete and sign the form at the auction when payment is made. Form 3000-2, when completed, certifies compliance with lessee qualifications (43 CFR 3102.5-2) and also certifies compliance with 18 USC 1860, which prohibits unlawful combination of or intimidation of bidders and certifies that the bid was arrived at independently without unlawful collusion.

AWARD OF LEASES: Leases will be awarded to the highest qualified

bidder after payment of all monies due and execution of all required lease documents. The lease shall issue upon signing of the lease form by an authorized officer of the Bureau of Land Management. The effective date of the lease shall be the first day of the month following signature of the lease form by the authorized officer, unless a specific written request is made that the effective date be the first of the month in which the lease is signed by the authorized officer.

OTHER CONDITIONS OF SALE: The authorized officer shall at the time of sale make any rule regarding sale procedures which in his or her opinion is necessary for the proper conduct of the sale.

UNSOLD PARCELS: Parcels contained in this Notice of Competitive Lease Sale for which no bids are received at the oral auction and no noncompetitive presale offers are pending, and which have not been withdrawn from the sale by BLM, shall be available for regular noncompetitive lease offer in accordance with 43 CFR Subpart 3110 for a two-year period. The two-year period shall commence at 9:00 a.m. on **Wednesday, August 5, 1998**. All noncompetitive offers received on that first business day following the auction will be considered simultaneously filed. Offers received thereafter shall receive priority as of the date and time of filing as specified at 43 CFR 1821.2-3(a).

PENDING NONCOMPETITIVE PRESALE OFFERS: A presale noncompetitive offer filed in accordance with 43 CFR 3110.1(a) for a parcel offered at the sale, and for which no bid was received, has first priority over an offer filed after the sale. Parties are cautioned that any lands in a parcel not sold at the auction which are subject to a pending noncompetitive presale offer may not be available for further noncompetitive filings. Those lands will be issued to the party who submitted the presale offer, all else being regular. However, if it is announced at the beginning of the sale that the presale offer has been withdrawn, noncompetitive filings will be accepted after the sale for that parcel. Parcels with pending noncompetitive presale offers are identified in this Notice of Competitive Lease Sale by the notation "Pending Offer (number)" indicated after the parcel description. **Parcels WY-9808-135 and 151 have pending noncompetitive offers.**

DROP BOX: For the convenience of those attending the sale, a drop box will be available at the sale site on the sale date (Tuesday, August 4, 1998) to receive noncompetitive offers; however, any offer received in that manner and at that time will be considered to have been filed at the Wyoming State Office as of 9:00 a.m., Wednesday, August 5, 1998, and it will be so dated. Early offers, except as specified in the preceding sentence, will not be accepted. Offers deposited in the drop box shall be considered filed and will be processed.

FORM OF NONCOMPETITIVE OFFERS: In accordance with the regulations codified at 43 CFR 3110.5, noncompetitive offers filed on the **first** business day following the close of the oral auction, in the drop box at the auction site, or during the **remainder** of the sale month (through August 31, 1998) **MUST** describe the lands **SOLELY** by the parcel number appearing in this Notice of Competitive Oil and Gas Lease Sale, i.e., WY-9808-001, WY-9808-002, etc. Thereafter, all noncompetitive oil and gas lease offers **MUST** be filed by legal land description. The filing of any such noncompetitive lease offer constitutes consent by the offeror to the terms and conditions, including lease stipulations, set out for the parcel

in this Notice of Competitive Oil and Gas Lease Sale. All noncompetitive oil and gas lease offers must be submitted on the

current lease Form 3100-11. If photocopies are used, they must be **exact** reproductions on one page of both sides (head to toe) of the official form. Each noncompetitive offer **MUST** be accompanied by: 1) A \$75 **NONREFUNDABLE** filing fee; and 2) the first-year's advance rental of \$1.50 per acre or fraction thereof. Noncompetitive oil and gas lease offers that are not filed in accordance with regulations at 43 CFR Part 3110 shall be rejected.

LEGAL DESCRIPTIONS: The Notice of Competitive Lease Sale is prepared and processed with land status information extracted directly from the Automated Lands and Minerals Record System (ALMRS). Lands described in this Notice are in essentially the same format as used by ALMRS.

1. The townships and ranges contain extraneous zeros (examples underlined).

T.0370N, R.0620W
T.0200N, R.1000W

2. ALMRS will code a 1/2 township as a 2 in the database. This 2 will appear as the last digit in the number.
3. Section numbers contain extraneous leading zeros.
4. Lands are described separately by lots, aliquot parts, tracts, and exceptions to survey for each section.
5. Rights-of-way exclusions are described as to only those lands affected.
6. The former lease numbers for the lands in each parcel will no longer be included below the parcel description as in the past. The reason for this is that parcels will now be configured as requested rather than as they were previously leased. As such, the former lease number is no longer relevant.

If you have any questions about the lands described, please contact the Wyoming State Office at (307) 775-6184 or 775-6162.

NOTE: Should assistance be needed for the hearing or visually impaired, please contact the Leasing Section, Wyoming State Office, at (307) 775-6184 by Wednesday, July 15, 1998. The sale site is accessible to the handicapped.

The following is our tentative sale date for the next sale:
October 6, 1998.

 restricted or prohibited unless the operator
 and surface managing agency arrive at an
 acceptable plan for mitigation of
 anticipated impacts; (2) entire lease; (3)
 protecting the South Pass Historic
 Landscape.

CSU (1) Surface occupancy or use as mapped on
 the Green River Resource Area GIS database
 is completely prohibited unless and until
 the lessee/operator can demonstrate in
 writing that all impacts to the resources
 identified below and occurring in this area
 will be either insignificant or can be
 mitigated to insignificance. This
 prohibition includes exploration,
 development, and operations and maintenance
 of facilities; (2) these areas are or will
 be mapped on the Green River Resource Area
 Office Geographic Information System; (3)
 the purpose of this study and prohibition is
 the protection of multiple big game crucial
 winter ranges, migration routes, and
 parturition areas.

Chief, Leasable Minerals Section

MULTIPLE MINERAL DEVELOPMENT STIPULATION

Operations will not be approved which, in the opinion of the authorized officer, would unreasonably interfere with the orderly development and/or production from a valid existing mineral lease issued prior to this one for the same lands.

THIS STIPULATION APPLIES TO ALL PARCELS

ATTACHMENT TO EACH LEASE

NOTICE TO LESSEE

Provisions of the Mineral Leasing Act (MLA) of 1920, as amended by the Federal Coal Leasing Amendments Act of 1976, affect an entity's qualifications to obtain an oil and gas lease. Section 2(a)(2)(A) of the MLA, 30 U.S.C. 201 (a)(2)(A), requires that any entity that holds and has held a Federal coal lease for 10 years beginning on or after August 4, 1976, and who is not producing coal in commercial quantities from each such lease, cannot qualify for the issuance of any other lease granted under the MLA. Compliance by coal lessees with Section 2(a)(2)(A) is explained in 43 CFR 3472.

In accordance with the terms of this oil and gas lease, with respect to compliance by the initial lessee with qualifications concerning Federal coal lease holdings, all assignees and transferees are hereby notified that this oil and gas lease is subject to cancellation if: (1) the initial lessee as assignor or as transferor has falsely certified compliance with Section 2(a)(2)(A), or (2) because of a denial or disapproval by a State Office of a pending coal action, i.e., arms-length assignment, relinquishment, or logical mining unit, the initial lessee as assignor or as transferor is no longer in compliance with Section 2(a)(2)(A). The assignee, sublessee or transferee does not qualify as a bona fide purchaser and, thus, has no rights to bona fide purchaser protection in the event of cancellation of this lease due to noncompliance with Section 2(a)(2)(A).

Information regarding assignor, sublessor or transferor compliance with Section 2(a)(2)(A) is contained in the lease case file as well as in other Bureau of Land Management records available through the State Office issuing this lease.

LEASE NOTICE NO. 1

Under Regulation 43 CFR 3101.1-2 and terms of the lease (BLM Form 3100-11), the authorized officer may require reasonable measures to minimize adverse impacts to other resource values, land uses, and users not addressed in lease stipulations at the time operations are proposed. Such reasonable measures may include, but are not limited to, modification of siting or design of facilities, timing of operations, and specification of interim and final reclamation measures, which may require relocating proposed operations up to 200 meters, but not off the leasehold, and prohibiting surface disturbance activities for up to 60 days.

The lands within this lease may include areas not specifically addressed by lease stipulations that may contain special values, may be needed for special purposes, or may require special attention to prevent damage to surface and/or other resources. Possible special areas are identified below. Any surface use or occupancy within such special areas will be strictly controlled or, if absolutely necessary, prohibited. Appropriate modifications to imposed restrictions will be made for the maintenance and operation of producing wells.

1. Slopes in excess of 25 percent.
2. Within 500 feet of surface water and/or riparian areas.
3. Construction with frozen material or during periods when the soil material is saturated or when watershed damage is likely to occur.
4. Within 500 feet of Interstate highways and 200 feet of other existing rights-of-way (i.e., U.S. and State highways, roads, railroads, pipelines, powerlines).
5. Within 1/4 mile of occupied dwellings.
6. Material sites.

GUIDANCE:

The intent of this notice is to inform interested parties (potential lessees, permittees, operators) that when one or more of the above conditions exist, surface disturbing activities will be prohibited unless or until the permittee or the designated representative and the surface management agency (SMA) arrive at an acceptable plan for mitigation of anticipated impacts. This negotiation will occur prior to development and become a condition for approval when authorizing the action.

Specific threshold criteria (e.g., 500 feet from water) have been established based upon the best information available. However,

geographical areas and time periods of concern must be delineated at the field level (i.e., "surface water and/or riparian areas" may include both intermittent and ephemeral water sources or may be limited to perennial surface water).

The referenced oil and gas leases on these lands are hereby made subject to the stipulation that the exploration or drilling activities will not interfere materially with the use of the area as a materials site/free use permit. At the time operations on the above lands are commenced, notification will be made to the appropriate agency. The name of the appropriate agency may be obtained from the proper BLM District Office.

THIS NOTICE APPLIES TO ALL PARCELS **EXCEPT** FOREST SERVICE PARCELS

SPECIAL COAL BED METHANE STIPULATION

- 1) You are restricted from drilling for, mining, extracting, removing or disposing of the coal bed methane;
- 2) Where the United States did not reserve the coal resources underlying any or all of the land included in this lease;
- 3) Pending a final court decision on the *Southern Ute Indian Tribe v. Amoco et al.* (10th Cir. 1997) ruling.

THIS STIPULATION APPLIES TO PARCELS WY-9808-055, 171, 182, 183, 184, 187, 199, 325, 330, 331

LEASE NOTICE - JACK MORROW HILLS

This parcel lies within the Jack Morrow Hills Coordinated Activity Plan (JMHCAP) area. From now until the end of 1999, the BLM will be studying this area, which is home to a herd of desert elk. The study will determine how much, if any, of this area will be available for activities such as oil and gas exploration and production. One possible outcome of the study is the prohibition of any oil and gas activity on any or all oil and gas leases issued in this area. Any person bidding on a parcel in this area should be aware that exploration, development, and lease operations may never be allowed on that parcel. During and after the study in this area, the BLM will, however, consider any reasonable proposal for exploration, production, or development, if the operator can show that these activities will not have any significant harm on the resources in this area.

THIS NOTICE APPLIES TO PARCELS WY-9808-242, 243, 244, 245, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 262, 263, 264, 265, 266, 267, 283, 294, 296, 297, 298, 299

SPECIAL LEASE NOTICE

THREATENED, ENDANGERED, CANDIDATE, OR OTHER SPECIAL STATUS PLANT AND ANIMAL SPECIES

The lease area may contain habitat for the threatened, endangered, candidate, or other special status plant and animal species listed below. Exploration and development proposals may be limited, or modifications required, if activity is planned within the habitat boundaries of a threatened, endangered, candidate, or other special status plant/animal species as it then exists. Upon receipt of a site specific proposal, the authorized officer will review current inventory records of each location and may require that further localized surveys be performed to assure no threatened, endangered, candidate (category 1 or 2), proposed, or other special status species are present. (Endangered Species Act of 1973 as amended, Sections 2 and 7.)

POWERSITE STIPULATION

The lessee or permittee hereby agrees:

(a) If any of the land covered by this lease or permit was, on the date the lease or permit application or offer was filed, within a powersite classification, powersite reserve, waterpower designation, or project on which an application for a license or preliminary permit is pending before the Federal Energy Regulatory Commission or on which an effective license or preliminary permit had been issued by the Federal Energy Regulatory Commission under the Federal Power Act, or on which an authorized power project (other than one owned or operated by the Federal Government) had been constructed, the United States, its permittees, or licensees shall have the prior right to use such land for purposes of power development so applied for, licensed, permitted, or authorized and no compensation shall accrue to the mineral lessee or permittee for loss of prospective profits or for damages to improvements or workings, or for any additional expense caused the mineral lessee as a result of the taking of said land for power development purposes. It is agreed, however, that where the mineral lessee or permittee can make adjustments of his improvements to avoid undue interference with power development, he will be permitted to do so at his own expense.	_ Furthermore, occupancy and use of the land by the mineral lessee or permittee shall be subject to such reasonable conditions with respect to the use of the land as may be prescribed by the Federal Energy Regulatory Commission for the protection of any improvements and workings constructed thereon for power development. _ (b) If any of the land covered by this lease or permit is on the date of the lease or permit within a powersite classification, powersite reserve, or waterpower designation which is not governed by the preceding paragraph, the lease or permit is subject to the express condition that the operations under it shall be so conducted as not to interfere with the administration and use of the land for powersite purposes to a greater extent than may be determined by the Secretary of the Interior to be necessary for the most beneficial use of the land. In any case, it is agreed that where the mineral lessee or permittee can make adjustments to avoid undue interference with power development, he will be permitted to do so at his own expense.

THIS STIPULATION APPLIES TO PARCELS WY-9808-189, 202, 203, 204, 206

NO SURFACE OCCUPANCY STIPULATION - NSO

No surface occupancy or use is allowed on the lands described below
(legal subdivision or other description).

NSO (1)

For the purpose of:

NSO (2)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

TIMING LIMITATION STIPULATION - TLS

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

TLS (1)

On the lands described below:

TLS (2)

For the purpose of (reasons):

TLS (3)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

CONTROLLED SURFACE USE STIPULATION - CSU

Surface occupancy or use is subject to the following special operating constraints.

CSU (1)

On the lands described below:

CSU (2)

For the purpose of:

CSU (3)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

NOTICE FOR LANDS OF THE NATIONAL FOREST SYSTEM
UNDER JURISDICTION OF
DEPARTMENT OF AGRICULTURE

The permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of Interior in the permit. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of an exploration plan by the Secretary of the Interior, (2) uses of all existing improvements, such as forest development roads, within and outside the area permitted by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by an exploration plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to: District Ranger, 2250 East Richards, Douglas, WY 82633, telephone (307) 358-4690 who is the authorized representative of the Secretary of Agriculture.

NOTICE

CULTURAL AND PALEONTOLOGICAL RESOURCES - The FS is responsible for assuring that the leased lands are examined to determine if cultural resources are present and to specify mitigation measures. Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the FS, shall:

1. Contact the FS to determine if a site specific cultural resource inventory is required. If a survey is required, then:
2. Engage the services of a cultural resource specialist acceptable to the FS to conduct a cultural resource inventory of the area of proposed surface disturbance. The operator may elect to inventory an area larger than the area of proposed disturbance to cover possible site relocation which may result from environmental or other considerations. An

acceptable inventory report is to be submitted to the FS for review and approval at the time a surface disturbing plan of operation is submitted.

3. Implement mitigation measures required by the FS and BLM to preserve or avoid destruction of cultural resource values. Mitigation may include relocation of proposed facilities, testing, salvage, and recordation or other protective measures. All costs of the inventory and mitigation will be borne by the lessee or operator, and all data and materials salvaged will remain under the jurisdiction of the U.S. Government as appropriate.

The lessee or operator shall immediately bring to the attention of the FS and BLM any cultural or paleontological resources or any other objects of scientific interest discovered as a result of surface operations under this lease, and shall leave such discoveries intact until directed to proceed by FS and BLM.

ENDANGERED OR THREATENED SPECIES - The FS is responsible for assuring that the leased land is examined prior to undertaking any surface-disturbing activities to determine effects upon any plant or animal species listed or proposed for listing as endangered or threatened, or their habitats. The findings of this examination may result in some restrictions to the operator's plans or even disallow use and occupancy that would be in violation of the Endangered Species Act of 1973 by detrimentally affecting endangered or threatened species or their habitats.

The lessee/operator may, unless notified by the FS that the examination is not necessary, conduct the examination on the leased lands at his discretion and cost. This examination must be done by or under the supervision of a qualified resource specialist approved by the FS. An acceptable report must be provided to the FS identifying the anticipated effects of a proposed action on endangered or threatened species or their habitats.

THIS NOTICE APPLIES TO PARCELS WY-9808-002, 010, 012, 014, 016, 335

LEASE NOTICE

BASELINE WATER QUALITY/MONITORING

This lease was issued based on limited available information regarding water resources that may be affected by oil and gas operations. No activities can be approved that would violate the "Clean Water Act of 1972," as amended and associated Federal and State regulations. In order to assure protection and antidegradation of water quality, the lessee may be required to collect baseline information for any surface and subsurface waters that could be adversely affected, prior to approval of proposed operations. Baseline water quality information may include flow, physical, chemical and biological components of the water resource. Authority for this requirement can be found in Section 6 of the Standard Lease Terms. Whereas, "Prior to disturbing the surface of leased lands...Lessee may be required to complete minor inventories or short-term special studies under guidelines provided by the lessor."

Section 6 also requires that the lessee conduct operations in a manner that minimizes adverse impacts to water and biological resources. The lessee shall take reasonable measures deemed necessary by the lessor to protect these resources. The lessee will be required to establish a monitoring program capable of identifying and measuring any impacts to flow, physical, chemical and biological components of the water resource that may occur as a result of operations.

Requirements for baseline data collection and water monitoring will be determined on a site specific basis.

THIS NOTICE APPLIES TO PARCELS WY-9808-002, 010, 012, 014, 016, 335

NOTICE FOR LANDS OF THE NATIONAL FOREST SYSTEM
UNDER JURISDICTION OF
DEPARTMENT OF AGRICULTURE

The permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of Interior in the permit. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of an exploration plan by the Secretary of the Interior, (2) uses of all existing improvements, such as forest development roads, within and outside the area permitted by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by an exploration plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to: District Ranger, Greybull Ranger District, 2044 S. State, Box 158, Meeteetsee, WY 82433, telephone (307) 868-2536 who is the authorized representative of the Secretary of Agriculture.

NOTICE

CULTURAL AND PALEONTOLOGICAL RESOURCES - The FS is responsible for assuring that the leased lands are examined to determine if cultural resources are present and to specify mitigation measures. Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the FS, shall:

1. Contact the FS to determine if a site specific cultural resource inventory is required. If a survey is required, then:
2. Engage the services of a cultural resource specialist acceptable to the FS to conduct a cultural resource inventory of the area of proposed surface disturbance.
