

NOTICE FOR LANDS OF THE NATIONAL FOREST SYSTEM  
UNDER JURISDICTION OF  
DEPARTMENT OF AGRICULTURE

The permittee/lessee must comply with all the rules and regulations of the Secretary of Agriculture set forth at Title 36, Chapter II, of the Code of Federal Regulations governing the use and management of the National Forest System (NFS) when not inconsistent with the rights granted by the Secretary of Interior in the permit. The Secretary of Agriculture's rules and regulations must be complied with for (1) all use and occupancy of the NFS prior to approval of a permit/operation plan by the Secretary of the Interior, (2) uses of all existing improvements, such as forest development roads, within and outside the area permitted by the Secretary of the Interior, and (3) use and occupancy of the NFS not authorized by a permit/operation plan approved by the Secretary of the Interior.

All matters related to this stipulation are to be addressed to:

**District Ranger, Douglas Ranger District**  
Thunder Basin National Grassland  
2250 East Richards Street  
Douglas, WY 82633  
(307) 358-4690

who is the authorized representative of the Secretary of Agriculture.

**NOTICE**

**CULTURAL AND PALEONTOLOGICAL RESOURCES** - The FS is responsible for assuring that the leased lands are examined to determine if cultural resources are present and to specify mitigation measures. Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the FS, shall:

1. Contact the FS to determine if a site specific cultural resource inventory is required. If a survey is required, then:
2. Engage the services of a cultural resource specialist acceptable to the FS to conduct a cultural resource inventory of the area of proposed surface disturbance. The operator may elect to inventory an area larger than the area of proposed disturbance to cover possible site relocation which may result from environmental or other considerations. An acceptable inventory report is to be submitted to the FS for review and approval at the time a surface disturbing plan of operation is submitted.

3. Implement mitigation measures required by the FS and BLM to preserve or avoid destruction of cultural resource values. Mitigation may include relocation of proposed facilities, testing, salvage, and recordation or other protective measures. All costs of the inventory and mitigation will be borne by the lessee or operator, and all data and materials salvaged will remain under the jurisdiction of the U.S. Government as appropriate.

The lessee or operator shall immediately bring to the attention of the FS and BLM any cultural or paleontological resources or any other objects of scientific interest discovered as a result of surface operations under this lease, and shall leave such discoveries intact until directed to proceed by FS and BLM.

**ENDANGERED OR THREATENED SPECIES** - The FS is responsible for assuring that the leased land is examined prior to undertaking any surface-disturbing activities to determine effects upon any plant or animal species listed or proposed for listing as endangered or threatened, or their habitats. The findings of this examination may result in some restrictions to the operator's plans or even disallow use and occupancy that would be in violation of the Endangered Species Act of 1973 by detrimentally affecting endangered or threatened species or their habitats.

The lessee/operator may, unless notified by the FS that the examination is not necessary, conduct the examination on the leased lands at his discretion and cost. This examination must be done by or under the supervision of a qualified resource specialist approved by the FS. An acceptable report must be provided to the FS identifying the anticipated effects of a proposed action on endangered or threatened species or their habitats.

This notice applies to parcels: WY-0610-071, WY-0610-072, WY-0610-091, WY-0610-093, WY-0610-094, WY-0610-095, WY-0610-101, WY-0610-102, WY-0610-108, WY-0610-109, WY-0610-117, WY-0610-123, WY-0610-129, WY-0610-130, WY-0610-131, WY-0610-250, WY-0610-251, WY-0610-252, WY-0610-253, WY-0610-254, WY-0610-255, WY-0610-256, and WY-0610-257.

**TIMING LIMITATION STIPULATION  
GOLDEN EAGLE NESTS**

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from February 1 through July 31 within 0.50 miles (line of sight) of golden eagle nests.

**On the lands described below:**

T. 43 N., R. 63 W., 6<sup>th</sup> PM  
Sec. 19: SESE;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.50 mile (line-of-sight) of golden eagle nest fall within the jurisdiction of this stipulation.

**For the purpose of (reasons):**

Preventing reduced reproductive success.

Waivers, exceptions, or modifications (WEMs) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

This Stipulation applies to parcel: WY-0610-071.

**TIMING LIMITATION STIPULATION  
FERRUGINOUS HAWK NESTS**

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from March 1 through July 31 within 0.50 miles (line of sight) of ferruginous hawk nests.

**On the lands described below:**

T. 43 N., R. 63 W., 6<sup>th</sup> PM  
Sec. 8: NWSW;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.50 mile (line-of-sight) of a ferruginous hawk nest fall within the jurisdiction of this stipulation.

**For the purpose of (reasons):**

Preventing reduced reproductive success.

Waivers, exceptions, or modifications (WEM's) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

This Stipulation applies to parcel: WY-0610-071.

**CONTROLLED SURFACE USE STIPULATION  
PALEONTOLOGY - Fossils**

**Surface occupancy or use is subject to the following special operating constraints.**

Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the Forest Service, shall:

- 1) Contact the Forest Service to determine if a site-specific vertebrate paleontological inventory is required. The Forest Service will conduct inventories and surveys as part of the field review for the proposed activity on the lease. The operator may voluntarily engage the services of a qualified paleontologist to conduct the inventory.
- 2) Implement mitigation measures required by the Forest Service and Bureau of Land Management to preserve or avoid destruction of vertebrate paleontologic resources. Mitigation may include relocation of proposed facilities or other protective measures.
- 3) The lessee or operator shall immediately bring to the attention of the Forest Service any vertebrate paleontologic resources discovered as a result of surface operation under this lease, and shall leave such discoveries intact until directed to proceed by the Forest Service.

**On lands described below:**

ALL LANDS

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands within the designated paleontology area fall within the jurisdiction of this stipulation.

**For the purpose of:**

Protecting fossils and immediate environment of the site, including inherent scientific, natural historic, interpretive, educational, and recreational values for the area potentially impacted.

Waivers, exceptions, or modifications (WEM'S) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1650 and 2820.)**

This stipulation applies to parcel: WY-0610-071.

This Map applies to parcel: WY-0610-094.

**NO SURFACE OCCUPANCY STIPULATION  
FERRUGINOUS HAWK NEST**

**No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).**

No surface occupancy and use is allowed within 0.25 mile (line-of-sight) of a ferruginous hawk nest.

T. 46 N., R. 64 W., 6<sup>th</sup> PM

Sec. 17: SENE;

Sec. 33: N2NE;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.25 mile (line-of-sight) of a ferruginous hawk nest fall within the jurisdiction of this stipulation.

**For the purpose of:**

Preventing reduced reproductive success and adverse habitat loss.

Waivers, exceptions, or modifications (WEMs) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of the leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820).**

This Stipulation applies to parcel: WY-0610-095.

**TIMING LIMITATION STIPULATION  
FERRUGINOUS HAWK NESTS**

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from March 1 through July 31 within 0.50 miles (line of sight) of ferruginous hawk nests.

**On the lands described below:**

T. 46 N., R. 64 W., 6<sup>th</sup> PM  
Sec. 17: SENE;  
Sec. 33: N2NE, NENW;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.50 mile (line-of-sight) of a ferruginous hawk nest fall within the jurisdiction of this stipulation.

**For the purpose of (reasons):**

Preventing reduced reproductive success.

Waivers, exceptions, or modifications (WEM's) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

This Stipulation applies to parcel: WY-0610-095.

**TIMING LIMITATION STIPULATION  
SAGE GROUSE DISPLAY GROUNDS**

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from March 1 through June 15 within 2 miles (line of sight) of a sage grouse display ground, and noise from production facilities must not exceed 49 decibels (10 dBA above background noise) at the display ground.

**On the lands described below:**

T. 46 N., R. 64 W., 6<sup>th</sup> PM

Sec. 6: Lot 3;

Sec. 33: N2NE, NENW;

Sec. 35: NESE, S2SE;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within the designated active sage grouse display grounds fall within the jurisdiction of this stipulation.

**For the purpose of (reasons):**

Preventing abandonment of display grounds and reduced reproductive success.

Waivers, exceptions, or modifications (WEM's) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

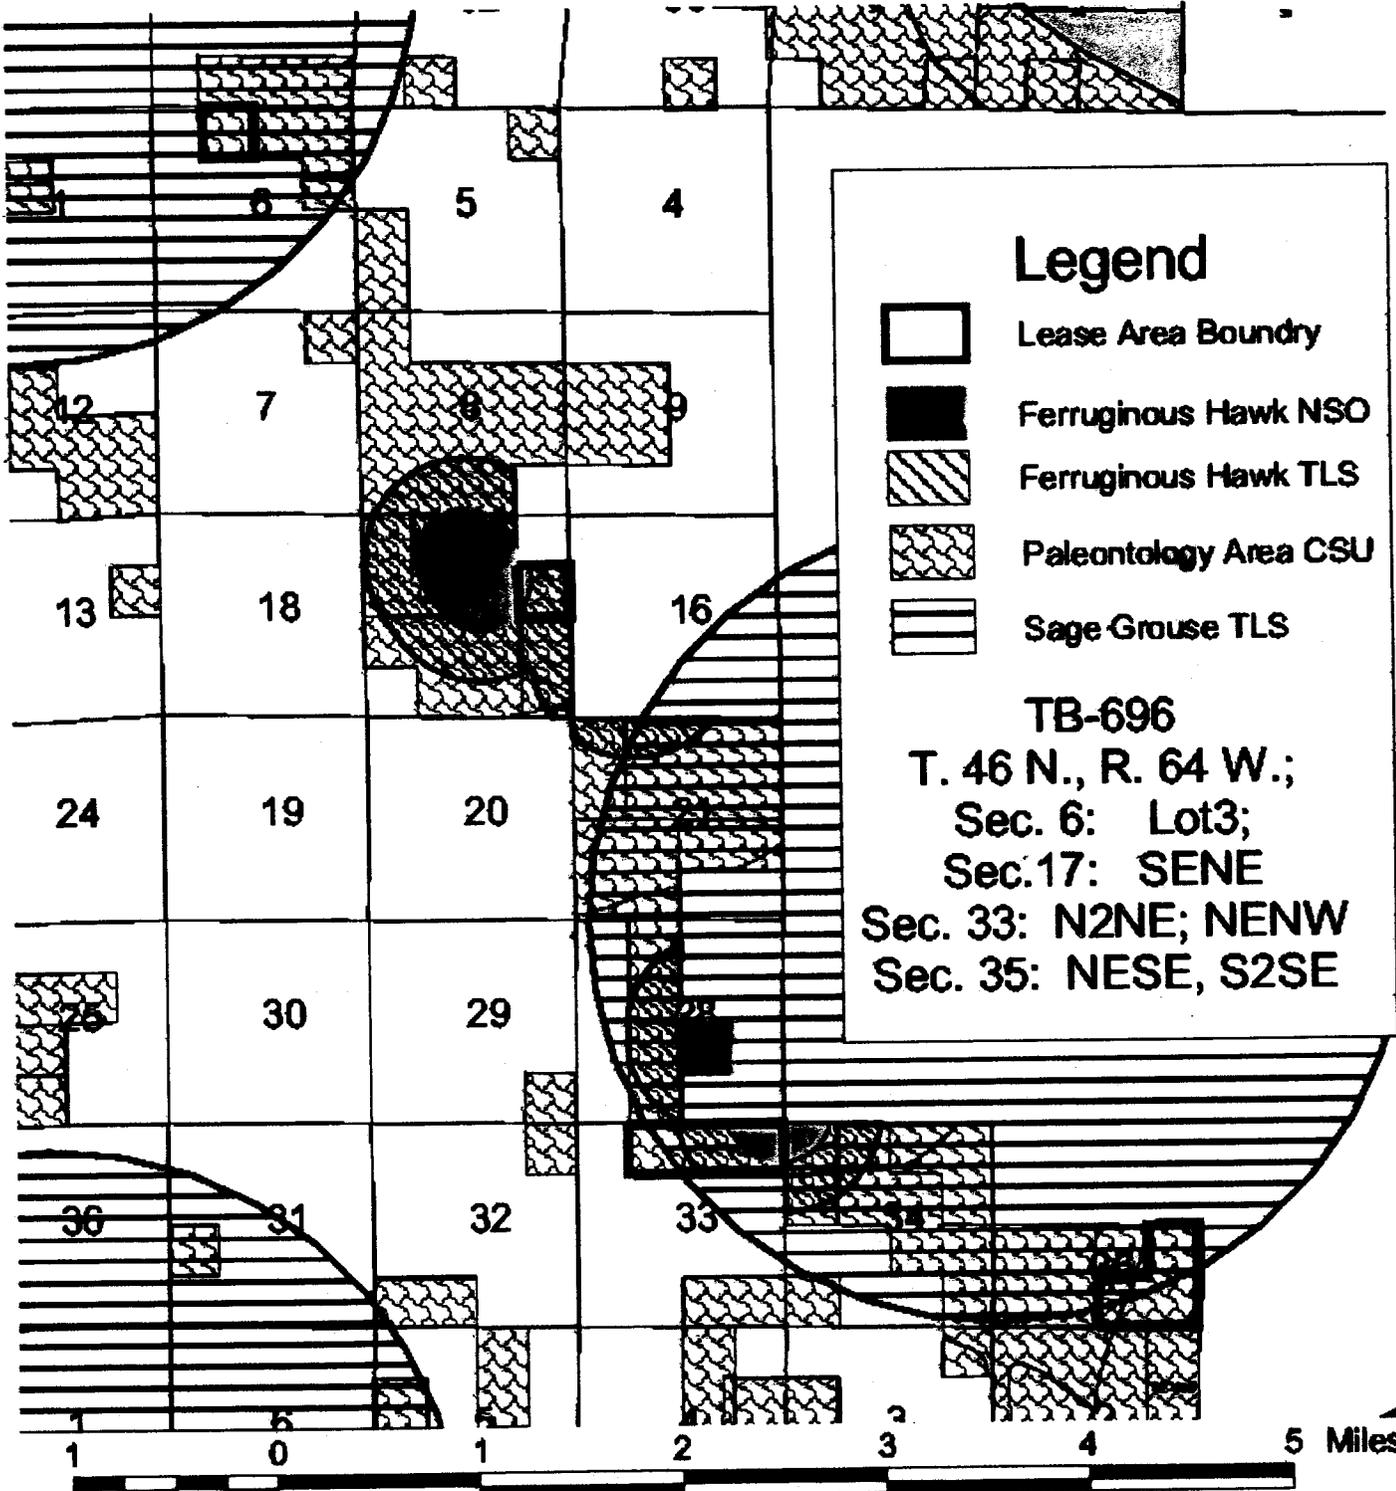

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A.

**For the purpose of:**

Protecting against activities that will adversely impact black-footed ferret reintroduction objectives.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1650 and 2820.)**

This Stipulation applies to parcel: WY-0610-123.

**CONTROLLED SURFACE USE STIPULATION**  
**PALEONTOLOGY - Fossils**

**Surface occupancy or use is subject to the following special operating constraints.**

Prior to undertaking any surface-disturbing activities on the lands covered by this lease, the lessee or operator, unless notified to the contrary by the Forest Service, shall:

- 1) Contact the Forest Service to determine if a site-specific vertebrate paleontological inventory is required. The Forest Service will conduct inventories and surveys as part of the field review for the proposed activity on the lease. The operator may voluntarily engage the services of a qualified paleontologist to conduct the inventory.
- 2) Implement mitigation measures required by the Forest Service and Bureau of Land Management to preserve or avoid destruction of vertebrate paleontologic resources. Mitigation may include relocation of proposed facilities or other protective measures.
- 3) The lessee or operator shall immediately bring to the attention of the Forest Service any vertebrate paleontologic resources discovered as a result of surface operation under this lease, and shall leave such discoveries intact until directed to proceed by the Forest Service.

**On lands described below:**

T. 40 N., R. 68 W., 6<sup>th</sup> PM  
Sec. 27: S2SE;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands within the designated paleontology area fall within the jurisdiction of this stipulation.

**For the purpose of:**

Protecting fossils and immediate environment of the site, including inherent scientific, natural historic, interpretive, educational, and recreational values for the area potentially impacted.

Waivers, exceptions, or modifications (WEM'S) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1650 and 2820.)**

This Stipulation applies to parcel: WY-0610-123.

**CONTROLLED SURFACE USE STIPULATION**  
Black-footed Ferret Reintroduction Habitat

**Surface occupancy or use is subject to the following special operating constraints.**

To preserve black-footed ferret habitat (Management Area 3.63), operations in all prairie dog colonies are subject to the following constraints:

- Limit oil and gas development to no more than one location per 80 acres.
- Suitable black-footed ferret habitat lost as a result of new facilities within prairie dog colonies must be replaced within 1 year.
- Access for routine maintenance of oil and gas facilities in prairie dog colonies is limited to daylight hours. This does not apply to emergency repairs.
- If it's necessary to place a new road in a prairie dog colony, align the road to minimize habitat loss.

**On lands described below:**

T. 40 N., R. 68 W., 6<sup>th</sup> PM  
Sec. 14: SWSE;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A.

**For the purpose of:**

Protecting against activities that will adversely impact black-footed ferret reintroduction objectives.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1650 and 2820.)**

This Stipulation applies to parcel: WY-0610-123.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

This Stipulation applies to parcel: WY-0610-130.

**TIMING LIMITATION STIPULATION**  
Golden Eagle Nests

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from February 1 through July 31 within 0.50 miles (line of sight) of golden eagle nests.

**On the lands described below:**

ALL LANDS

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.50 mile (line-of-sight) of golden eagle nest fall within the jurisdiction of this stipulation.

**For the purpose of (reasons):**

Preventing reduced reproductive success.

Waivers, exceptions, or modifications (WEMs) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

This Stipulation applies to parcel: WY-0610-130.

**CONTROLLED SURFACE USE STIPULATION**  
Water, Wetlands, Woody Draws, Riparian, and Floodplains

**Surface occupancy or use is subject to the following special operating constraints.**

Try to locate activities and facilities away from the water's edge and outside the riparian areas, woody draws, wetlands, and floodplains. If necessary to locate facilities in these areas, then:

- Deposit no waste material (silt, sand, gravel, soil, slash, debris, chemical or other material) below high water lines, in riparian areas, in the areas immediately adjacent to riparian areas or in natural drainageways (draws, land surface depressions or other areas where overland flow concentrates and flows directly into streams or lakes.)
- Deposit no soil material in natural drainageways.
- Locate the lower edge of disturbed or deposited soil banks outside the active floodplain.
- Stockpile no topsoil or any other disturbed soil in the active floodplain.
- Locate drilling mud pits outside riparian areas, wetlands and floodplains. If location is unavoidable in these areas, seal and dike all pits to prevent leakage or use containerized mud systems.

**On lands described below:**

T. 40 N., R. 69 W., 6<sup>th</sup> PM  
Sec. 9: S2SW;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within the designated riparian area fall within the jurisdiction of this stipulation.

**For the purpose of:**

Protecting the biological and hydrologic features of riparian areas, woody draws, wetlands, and floodplains.

Waivers, exceptions, or modifications (WEMs) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1650 and 2820.)**

This Stipulation applies to parcel: WY-0610-130.

**CONTROLLED SURFACE USE STIPULATION**  
Black-footed Ferret Habitat

**Surface occupancy or use is subject to the following special operating constraints.**

Operations in prairie dog colonies known or thought to be occupied by black-footed ferrets are subject to the following constraints:

- Limit oil and gas development to no more than one location per 80 acres.
- Suitable black-footed ferret habitat lost as a result of new facilities within prairie dog colonies must be replaced within 1 year.
- Access for routine maintenance of oil and gas facilities in prairie dog colonies is limited to daylight hours. This does not apply to emergency repairs.
- If it's necessary to place a new road in a prairie dog colony, align the road to minimize habitat loss.

**On lands described below:**

ALL LANDS

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within MA 3.63 Black-footed Ferret Reintroduction Habitat.

**For the purpose of:**

Protecting against activities that could result in adverse impacts on black-footed ferrets or ferret recovery objectives.

No conditions for a waiver are anticipated, approval of a waiver is unlikely.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1650 and 2820.)**

This Stipulation applies to parcel: WY-0610-130.

**CONTROLLED SURFACE USE STIPULATION**  
Mountain Plover Habitat

**Surface occupancy or use is subject to the following special operating constraints.**

Operations in mountain plover nesting and brooding habitat are subject to the following constraints:

- Limit oil and gas development to no more than one location per 80 acres.
- Suitable mountain plover habitat lost as a result of new facilities must be replaced within 1 year.
- Access for routine maintenance of oil and gas facilities in mountain plover nesting and brooding habitat will be between 9 am and 5 pm. This does not apply to emergency repairs.
- If it's necessary to place a new road in a mountain plover nesting and brooding habitat, align the road to minimize habitat loss.

T. 44 N., R. 64 W., 6<sup>th</sup> PM  
Sec. 32: N2NE;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.25 mile (line-of-sight) of a ferruginous hawk nest fall within the jurisdiction of this stipulation.

**For the purpose of:**

Preventing reduced reproductive success and adverse habitat loss.

Waivers, exceptions, or modifications (WEMs) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of the leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820).**

This Stipulation applies to parcel: WY-0610-252.

**NO SURFACE OCCUPANCY STIPULATION  
SAGE GROUSE DISPLAY GROUNDS**

**No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).**

No surface occupancy and use is allowed within 0.25 mile (line-of-sight) of a sage grouse display ground.

T. 44 N., R. 64 W., 6<sup>th</sup> PM

Sec. 7: Lots 2-4;

Sec. 7: SENW, E2SW;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within the designated active sage grouse display grounds fall within the jurisdiction of this stipulation.

**For the purpose of:**

Preventing abandonment of display grounds, reduced reproductive success, and adverse habitat loss.

Waivers, exceptions, or modifications (WEMs) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of the leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820).**

This Stipulation applies to parcel: WY-0610-252.

**TIMING LIMITATION STIPULATION  
FERRUGINOUS HAWK NESTS**

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from March 1 through July 31 within 0.50 miles (line of sight) of ferruginous hawk nests.

**On the lands described below:**

T. 44 N., R. 64 W., 6<sup>th</sup> PM  
Sec. 32: N2NE;  
Sec. 33: NWNW;

On portions (or all, which ever is applicable) of the lands as shown on the attached map, Exhibit A. All lands that fall within 0.50 mile (line-of-sight) of a ferruginous hawk nest fall within the jurisdiction of this stipulation.

**For the purpose of (reasons):**

Preventing reduced reproductive success.

Waivers, exceptions, or modifications (WEM's) to this stipulation will be considered only at the time operations are proposed, and will be subject to the Forest Land and Resource Management Plan in effect at the time of consideration, and will be subject to applicable regulatory and environmental compliance requirements. Granting of a WEM is a discretionary action which the operator should not routinely expect. The Forest Service reserves the right to impose other stipulations in the same area of this leasehold if a WEM is granted.

**Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)**

This Stipulation applies to parcel: WY-0610-252.

**TIMING LIMITATION STIPULATION  
SAGE GROUSE DISPLAY GROUNDS**

**No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.**

Surface use is prohibited from March 1 through June 15 within 2 miles (line of sight) of a sage grouse display ground, and noise from production facilities must not exceed 49 decibels (10 dBA above background noise) at the display ground.

**On the lands described below:**

 Sec. 24: NESE

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be: developed from sources of differing accuracy, accurate only at certain scales, based on modeling or interpretation, incomplete while being created or revised, etc. Using GIS products for purposes other than those for which they were created may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification. For more information, contact: Medicine Bow-Routt NF's And Thunder Basin N.G. 2468 Jackson Street Laramie Wyoming, 82070 (307)745-2367
