Re: Protest of June 2nd, 2009 Competitive Oil and Gas Sale

Protest of 1 parcel. Specific parcel protested include: Parcel WY-0906-076

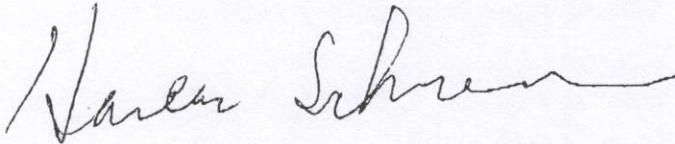

Dear Director Simpson:

I hereby protest the inclusion of the above referenced parcel in the lease sale advertised by the Bureau of Land Management. I request the above parcel be withdrawn from sale because:

- 1). Why would the BLM even think of offering this parcel knowing that it is located on crucial Sage-Grouse habitat, and knowing what kind of trouble that the Sage-Grouse are in right now.
- 2). Why would the BLM want to offer this parcel knowing that it is crucial winter range for Mule Deer, and very important to the wintering Elk that use this area for winter migration.

Respectfully,

Dear Director Simpson:

I hereby protest the inclusion of the above referenced parcel in the lease sale advertised by the Bureau of Land Management. I request the above parcel be withdrawn from sale because:

1). The reason that I am protesting this lease sale is that it happens to be on crucial Big Game winter range an on crucial Sage Grouse Habitat. Habitat for the sage grouse is shrinking fast enough the way it is and to take away another 1700 plus acres from them is totally out of the question.

Respectfully,

Dear Director Simpson:

I hereby protest the inclusion of the above referenced parcel in the lease sale advertised by the Bureau of Land Management. I request the above parcel be withdrawn from sale because:

- 1). This area is very important to me because I enjoy hunting Antelope, Mule Deer, Elk and Sage Grouse.
- 2). This area is very important wintering range for the Big Game animals I have listed above, and for the Sage Grouse.

Dear Director Simpson:

I hereby protest the inclusion of the above referenced parcel in the lease sale advertised by the Bureau of Land Management. I request the above parcel be withdrawn from sale because:

1). This parcel is located smack dab in the middle of crucial sage-grouse habitat. I think that I have been reading articles for the past ten or so years of how we are trying to keep the sage-grouse off of the threatened and endangered species list. Please wake up people! This is also crucial wintering habitat for mule deer, elk, and antelope.
